KEY TRANSIT FACTORS

♃ Jupiter △ Trine ♃ natal Jupiter

While this lasts, you feel naturally **confident in your own judgment**, and opportunities tend to show up without you forcing them. People respond well to you right now because you're genuinely relaxed about where things are headed. Over the coming weeks, trust your instincts about what's worth your time—your sense of what matters is especially clear.

♆ Neptune qx Quincunx ♃ natal Mercury

Over the coming weeks, you may find your thinking becomes **less direct and harder to organize** than usual. You might struggle to explain your ideas clearly to others, or notice that conversations wander off track more easily. This isn't permanent—it's just *Neptune* softening your usual mental sharpness, so patience with yourself during this period will help you move through it.

☿ Mercury ♂ Conjunction ♋ natal NNode

Right now you're more willing to speak up about things that matter to you, and people are actually listening. You find yourself **saying what you really think** instead of holding back, and conversations feel more direct and honest. Over the coming weeks, this clarity in how you communicate can help you build connections with people who share your actual interests and values.

♃ Jupiter ♂ Conjunction ♅ natal Uranus

Right now you feel **restless with your usual routines** and want to try new approaches to familiar problems. You might suddenly decide to change how you work, spend money, or organize your day just because the old way feels boring. This period pushes you toward practical experiments rather than staying comfortable with what you know.

♀ Venus ♂ Opposition ♁ natal Chiron

Right now you're noticing that people respond differently to you than usual, and it feels uncomfortable because old insecurities about your **likability and self-worth** are surfacing. You might find yourself either trying too hard to be liked or pulling away from social situations altogether, which makes real connection harder rather than easier. Over the coming weeks, this friction is an opportunity to see where you've been hiding your actual personality to fit in, but it will not feel good while it's happening.

♂ Mars Rx · ♐ Sagittarius

The drive to expand, travel, or pursue big goals hits practical obstacles during this period. Restlessness and impatience with limitations are higher than usual, but action taken from frustration tends to misfire. Reviewing your longer-term direction is more rewarding now than forcing movement toward it.

☉ Sun qx Quincunx ♂ Mars

At the moment, you feel driven to act but something keeps pulling your attention in a different direction, making it hard to move forward with any single plan. Your usual way of doing things no longer feels quite right, and you have to keep adjusting your approach as you go. This mismatch between what you want to do and what actually works creates a practical friction that requires patience and small corrections rather than big changes.

☉ Sun □ Square ♅ Uranus

Right now you are more **restless and impatient with routine**, which makes it harder to stick to normal responsibilities or follow through on what you started. You want to break free from constraints, but the practical world does not cooperate, so you feel trapped between what you want to do and what you have to do. This psychological friction can push you toward reckless decisions if you do not find a safe outlet for the urge to rebel.

☉ Sun ☿ Quincunx ♄ Chiron

Right now you notice small practical problems in areas where you thought you had things figured out. Your confidence runs into situations that don't quite fit your usual approach, and you have to **adjust your methods rather than push through**. This mismatch between what you expected and what's actually happening is the main feature of these days, and it often leads to useful corrections if you pay attention.

LUNAR DAY

Moon in ♈ Aries · Day 26 / 30 · Waning Crescent

Impatience with delays rises noticeably right now, and people act on whatever they want without much advance thinking. Short tempers and blunt reactions are more common for the next 48 hours.
