KEY TRANSIT FACTORS

☉ Sun ∟ Semi sextile ♀ Venus ★

Right now you find it easier to notice what you like about people around you, and that makes your social interactions feel smoother. You're more likely to **compliment someone without overthinking it** or suggest doing something enjoyable together. This isn't a dramatic shift, but these days small acts of kindness and warmth come more naturally to you.

♁ Chiron ♂ Quincunx ♃ natal Jupiter

Over the coming weeks, you notice a mismatch between what you want to believe about yourself and what actually works in your life. You find yourself **questioning your usual confidence** or having to adjust your plans when reality doesn't match your expectations. This gap between your hopes and the practical results you're getting will likely push you to make small changes to how you approach problems.

♁ Chiron □ Square ♅ natal Uranus

Right now you feel caught between wanting to break free and being afraid of what comes next. **You act impulsively without thinking through the consequences**, then immediately regret decisions you've made about your independence or your unconventional plans. Over the coming weeks, expect friction in areas where you've been trying to be different or rebel against expectations, because part of you still doubts whether the change is actually right for you.

☉ Sun △ Trine ♄ natal Saturn

Right now you're finding it easier to stick with difficult tasks without getting frustrated or distracted. Your **practical patience** is stronger than usual, which means you can push through boring or repetitive work without burning out. Over the coming weeks, this is a good time to tackle projects that need steady effort rather than sudden bursts of energy.

♅ Uranus ♀ Opposition ♁ natal Chiron

Right now you are **unusually defensive about your weaknesses** and less willing to accept practical help from others. You may find yourself resisting advice or support that would normally feel useful to you, creating unnecessary friction in relationships where people are trying to assist. This defensiveness can push away the exact people who understand your limitations and could actually make things easier during these coming weeks.

♂ Mars ♀ Opposition ♃ natal Jupiter

Right now you're likely to **overestimate what you can handle** and push too hard on multiple fronts at once. You feel driven to act on every impulse and opportunity, but this usually leads to scattered effort and exhaustion rather than real progress. Over the coming weeks, the gap between your confidence and your actual capacity becomes the main problem you're working against.

♃ Jupiter Rx · ♌ Leo

Creative confidence and the desire to be seen or celebrated retreat inward during this period. Projects that were expanding boldly may need a quieter phase of consolidation and honest self-review. Evaluating what you are genuinely proud of versus what requires more work is the most honest use of this time.

› Moon * Sextile ♀ Mercury

These days your thoughts feel clearer and your feelings find words more easily than usual. You notice you can **explain what you're going through without getting stuck or defensive**, and other people seem to understand you better. This is a good time to have conversations that matter, because both your head and your heart are on the same team right now.

› Moon ∟ Semi sextile ♄ Saturn

These days you find it easier to **talk about practical problems without getting swept up in feelings**. The Moon and Saturn aspect makes emotional conversations feel steadier, so you can say what needs saying without drama. This is a good time to have difficult talks about real things because your head and your heart are working together instead of against each other.
