KEY TRANSIT FACTORS

☉ Sun ☿ Conjunction ♊ natal NNode ★

Right now you are **more willing to step into situations that feel slightly unfamiliar**, whether that's speaking up in a group, trying a new activity, or saying yes to something you would normally decline. Your confidence is higher than usual, and people around you are responding to that shift in how you carry yourself. Over the coming weeks, pay attention to what kinds of opportunities you naturally gravitate toward, because they often point to what you actually want to develop.

☉ Sun ☿ Opposition ☾ natal Moon ★

Right now you feel caught between what you want to do and what you feel you should do, and this split is making you irritable and tired. Your **need for rest clashes with external demands**, so you're pushing yourself when your body is asking for a break. Over the coming weeks, others may see you as withdrawn or difficult, when really you're just exhausted from the mismatch between your inner state and what the outside world expects from you.

♀ Venus ∟ Semi sextile ♂ natal Mars ★

Right now you find it easier to **ask for what you want without apologizing**, whether in conversation or in your actions. Your usual hesitation about pursuing your own goals softens, and you can speak up or make moves with a natural confidence that feels good. This small but real shift helps you get things done and connect with others more directly over these coming weeks.

☉ Sun ∟ Semi sextile ♄ natal Saturn ★

These days you find it easier to **follow through on commitments** without feeling weighed down by them. Your sense of responsibility feels less like a burden and more like something you can actually manage. This lighter touch with structure means you get things done while still leaving room to enjoy yourself.

♀ Venus ∟ Semi sextile ☉ natal Sun ★

These days you feel **more comfortable being yourself around others**, and people respond well to that ease. You're not trying as hard to impress anyone, which actually makes your conversations flow better and your relationships feel less strained. This small shift in *Venus* supporting your *Sun* won't solve everything, but it gives you a genuine advantage in how you present yourself while it lasts.

☉ Sun ∟ Semi sextile ♂ Mars

These days you feel **motivated to take small steps forward** without forcing things or burning out. Your practical energy matches what you actually want to do right now, so starting a project or having a difficult conversation feels less exhausting than usual. This is a good window to build momentum on something you care about while the effort still feels natural.

› Moon ☐ Square ♀ Venus

Right now your **emotional needs feel at odds with what you actually want** — you might crave closeness but feel irritable when someone gets near, or want to be alone but then feel rejected. This mismatch between *Moon* and *Venus* makes it harder to communicate what you need without sounding demanding or cold. Over the coming weeks, pay attention to these moments so you can spot the pattern and name it out loud before resentment builds up.

› Moon ☐ Square ♃ Jupiter

Your emotions feel bigger than they actually are right now, and you are **overreacting to small disappointments** as if they matter more than they do. *Jupiter* amplifies whatever *Moon* is feeling, so today you might eat too much when you are mildly sad, or spend money you did not plan to spend because you want to feel better. The gap between what you want and what is realistic becomes harder to ignore, and sitting with that gap without doing something about it takes real effort.
