KEY TRANSIT FACTORS

♂ Mars ∠ Semi sextile ♀ natal Venus · peak 14 May ★

These days you feel more **confident when connecting with people** you care about, and small gestures of affection come naturally to you. Your *Mars* is working smoothly with your *Venus*, making it easier to express what you want without being pushy or awkward about it. Over the coming weeks, you might find that conversations flow better and you're less hesitant to take the social initiative.

♀ Venus ♀ Quincunx ☾ natal Moon · peak 31 May ★

Over the coming weeks, you may find your usual way of showing affection feels slightly off or awkward. You might want closeness but struggle to express it in ways that actually land with the people you care about. Small adjustments to how you approach relationships will help you feel more comfortable.

♄ Chiron ♂ Conjunction ♋ natal NNode · peak 28 May

Right now you're noticing where you've been holding back from doing things that matter to you, and you're feeling more willing to try them anyway. You're less focused on whether you'll look foolish or fail, and more focused on what you actually want to learn or attempt. Over the coming weeks, this practical shift in attitude is likely to push you into situations that feel new, uncomfortable, and oddly necessary.

♅ Uranus ♀ Quincunx ♀ natal Venus · peak 21 May

Right now you feel pulled in opposite directions about what you want from relationships and money. You might suddenly lose interest in something that mattered to you last week, or you find yourself **restless with routines** that used to feel comfortable. These impulses don't last long, but while they're here, you need to sit with the discomfort rather than act on every urge to change things.

♋ NNode ☐ Square ☿ natal Mercury · peak 25 May

Right now you're running into friction between what you want to say and what actually comes out, leaving conversations awkward or misunderstood. **You second-guess yourself constantly**, rewriting messages in your head and struggling to explain your real thoughts clearly to others. Over the coming weeks, this mismatch between your thinking and your ability to communicate will force you to slow down and pay closer attention to how you're actually being heard.

♋ NNode △ Trine ♇ natal Pluto · peak 2 May

You find it easier right now to **face difficult truths about yourself without feeling defensive**. People respond well when you talk about what you actually want instead of what you think you should want. Over the coming weeks, this honesty opens doors that staying quiet would have kept closed.

♃ Jupiter ♂ Opposition ♄ natal Chiron · peak 4 May

Over the coming weeks, you are likely to **overestimate your ability to fix old wounds or help others with their pain**, which can leave you feeling deflated when reality doesn't match your optimism. *Jupiter* is pushing you to expand and take charge in areas where *Chiron* reminds you of your actual limits and vulnerabilities. The mismatch between what you think you should be able to do and what you can actually manage may create frustration or self-doubt during this period.

♃ Jupiter * Sextile ♃ natal NNode · peak 31 May

Over the coming weeks, you find it easier to say yes to opportunities that align with what you actually want to do. You're less hesitant about taking small steps toward goals you've been thinking about, and **people around you tend to be more supportive when you ask for help or feedback**. This isn't about luck—it's that you're acting with more confidence, and others respond to that.

♃ Jupiter ☉ Opposition ♃ natal Jupiter · peak 15 May

You're running into a wall with your own optimism right now, and it's forcing you to face where you've been overcommitting or overestimating what you can handle. Your usual confidence in your ability to expand into new projects or relationships feels **blocked by practical reality**, which makes you restless and frustrated. Over the coming weeks, you'll need to scale back your ambitions and deal with the consequences of promises you made when your expectations were higher.

♃ Jupiter * Sextile ♃ natal Uranus · peak 17 May

You feel more **willing to try new approaches** to problems that have stalled, and practical opportunities show up that wouldn't have occurred to you before. Your natural caution loosens just enough to let you act on ideas you'd normally dismiss as too risky or unconventional. Over the coming weeks, this openness pays off in concrete ways—whether that's a new connection, a different way of working, or simply discovering that change is less frightening than you thought.

♄ Chiron ☉ Opposition ♃ natal Moon · peak 31 May

Over the coming weeks, you feel more aware of emotional wounds you've been carrying, which can make you irritable with the people closest to you. Your usual ways of comforting yourself stop working as well, leaving you **restless and dissatisfied** with your routines and relationships. This discomfort is real, but it's pushing you to look honestly at what you actually need instead of what you've settled for.

♇ Pluto △ Trine ♃ natal Mercury · peak 1 May

Your mind becomes unusually clear about problems you've been turning over for months, and you find yourself able to talk about difficult topics without getting defensive. These days you're **cutting through confusion** and saying what you actually mean, which helps other people understand you better. Over the coming weeks this clarity gives you real confidence in decisions you've been postponing.

♄ Saturn ☉ Opposition ♃ natal NNode · peak 1 May

Right now you feel **pulled backward into old patterns** when you try to move forward on anything meaningful. People around you seem to expect you to stay in a familiar role, and resisting them feels uncomfortable and isolating. Over the coming weeks you will need to choose between comfort and growth, and that choice will feel less like an opportunity and more like a real loss.

♃ Uranus △ Trine ♃ natal Mars · peak 1 May

These days you feel **willing to try things in new ways** without the usual hesitation that normally holds you back. Your practical actions become more flexible, and you find yourself breaking your own rules in ways that actually work out well. Over the coming weeks this confidence gives you the freedom to pursue goals that once seemed too risky or unconventional.

♃ Jupiter △ Trine ♃ natal Moon · peak 31 May

Right now you find it easier to feel **emotionally settled and optimistic** about your life, even when things aren't perfect. People around you respond to this shift, and you attract more genuine support and kindness without having to ask for it. Over the coming weeks, you're likely to make decisions about your home, family, or personal comfort that actually work out well because you're listening to what you truly need instead of what you think you should want.

♄ Saturn Rx · ♃ Sagittarius

Beliefs that have been functioning as unexamined rules are being tested for their actual utility right now. Long-term plans based on optimistic assumptions may need grounding in more realistic evaluation. Honest review of what you have committed to — in education, philosophy, or travel — is more productive than continuing forward without looking back.

Wed, 13 May Full Moon in Scorpio

Thu, 14 May ☿ Mercury enters ♊ Gemini

Mercury entering *Gemini* sharpens your ability to **pick up details** and **connect ideas quickly**, so conversations at work or home tend to move faster and cover more ground. People often notice they're **more curious** about how things work and less patient with slow explanations, which can make learning something new feel easier but also make waiting for others frustrating. At work and in daily tasks, **short-form communication** — texts, quick calls, bullet points — becomes more natural than long emails, and your mind jumps between topics more readily.

Fri, 15 May ♃ Jupiter ☊ Opposition ♃ natal Jupiter

Sun, 17 May ♀ Venus enters ♉ Taurus

♁ NNode □ Square ☿ natal Mercury

Venus in *Taurus* shifts how people handle money and relationships — you'll notice a **stronger pull toward stability** and less tolerance for drama or sudden changes. In work and friendships, this transit brings a **preference for steady progress** over risky moves, and people tend to stick with what works rather than constantly switch direction. Physical comfort matters more now, so expect **more attention to food, comfort items, and routine pleasures** as people naturally invest in things that feel reliable and good.

Thu, 21 May ♂ Mars enters ♋ Cancer

Mars in *Cancer* shifts how people push forward — instead of charging ahead, they move with **more caution and emotion**, checking in with themselves and others before acting. At work and in relationships, you'll notice people becoming **protective of what matters**, defending ideas or loved ones rather than starting new fights, and taking longer to make decisions because feelings are wrapped up in every choice. This transit typically brings **slower progress but steadier effort**, since *Mars* in *Cancer* keeps going even when tired, fuelled by loyalty and what feels personal rather than pure ambition.

Fri, 22 May ☉ Sun enters ♊ Gemini

Sun in *Gemini* brings a **shift toward curiosity and talking things through** — you'll notice people asking more questions, starting conversations they'd normally skip, and wanting to understand how things work. At work and in relationships, **communication becomes easier and faster**, though the downside is that people scatter their attention across more projects and topics than they can actually finish. **Short trips, emails, and quick decision-making** pick up noticeably during this month, so if you've been putting off organizing your schedule or catching up with contacts, this is when that restless energy makes it feel natural.

Mon, 25 May ♁ NNode □ Square ♃ natal Mercury

Thu, 28 May New Moon in Gemini

♁ Chiron ♂ Conjunction ♁ natal NNode

Sat, 30 May ♃ Mercury enters ♋ Cancer

Mercury entering *Cancer* makes people **slower to speak** and more careful about what they say, especially when emotions are involved. In conversations at work or home, you'll notice folks **asking more questions** before jumping to conclusions, and they tend to remember details from past talks that seemed unimportant before. **Written communication** becomes warmer but wordier during this time, so emails and texts often include more personal touches or take longer to compose.
