## KEY TRANSIT FACTORS

### ♆ Neptune ∟ Semi sextile ♂ natal Mars

Right now your usual drive to act is softened by a gentler, more intuitive approach to what you want. You find yourself **listening to your gut before charging ahead**, which actually helps you avoid wasted effort and see better options. Over the coming weeks, this combination of *Neptune* and *Mars* lets you pursue your goals with less force and more imagination, making your efforts feel easier even when you're working hard.

### ♀ Venus ∟ Semi sextile ♂ natal Mars

Right now you find it easier to **ask for what you want without apologizing**, whether in conversation or in your actions. Your usual hesitation about pursuing your own goals softens, and you can speak up or make moves with a natural confidence that feels good. This small but real shift helps you get things done and connect with others more directly over these coming weeks.

### ☿ Mercury \* Sextile ♃ natal Jupiter

Right now your **thinking is clearer and more optimistic**, which makes conversations and learning feel easier than usual. You find yourself explaining your ideas well and picking up new information quickly, whether that's at work, in classes, or just talking with people. These days you're more likely to take practical chances and say yes to opportunities because you actually believe things might work out.

### ♇ Pluto ♂ Conjunction ♃ natal Jupiter

You're experiencing a **pull toward bigger goals and riskier decisions** right now, as if your usual caution has lifted. You might pursue opportunities or make commitments that feel exciting but also require real resources or long-term responsibility. Over the coming weeks, watch whether you're expanding into something genuinely valuable or simply overextending yourself because the moment feels urgent.

### ♇ Pluto \* Sextile ♇ natal Pluto

You find it easier right now to **let go of situations that no longer serve you** without drama or regret. *Pluto* transiting in *sextile* to your natal *Pluto* gives you psychological permission to close chapters cleanly and move forward. Over the coming weeks you may notice you're making practical decisions about what stays and what goes with unusual clarity and calm.

### ☉ Sun ♂ Conjunction ♀ Venus

These days you find it easier to ask for what you want and to say yes to invitations without overthinking. People around you respond well because you come across as **genuinely interested in them** rather than worried about how you look. This is a good window for making a request, starting a conversation you have been putting off, or simply enjoying company without the usual self-doubt getting in the way.

### ☉ Sun ♂ Conjunction ♂ Mars

Right now you feel **more direct and willing to take action** on things you normally hesitate about. You're likely to speak up in conversations, push forward with a project, or make a decision you've been putting off. This practical confidence usually fades once the transit passes, so use it to handle what actually needs doing.

### ☉ Sun ♂ Conjunction ♅ Uranus

At the moment, you feel **restless and impatient with routines that normally work fine**. You might suddenly want to change something about how you look, where you work, or how you spend your time, even if there's no real problem. This push to break free or do something different is normal right now, so notice what you actually want to change versus what's just nervous energy looking for an outlet.

### LUNAR DAY

Moon in ♑ Capricorn · Day 1 / 30 · New Moon

**Focus narrows toward responsibilities** and unfinished obligations during this transit, with less tolerance for distraction or small talk. The emotional tone becomes more reserved and measured for the next 48 hours.
