KEY DATE

♀ Venus enters ♐ Sagittarius

Venus in *Sagittarius* brings a **looser, more generous** approach to spending and dating, with people tending to say yes to invitations and expensive outings rather than staying home. In relationships and work, this transit makes **honesty and directness** feel more important than keeping the peace, so conversations become blunter and less filtered. Most people notice they **want variety** — sticking with the same restaurant, routine, or person feels boring — and they're more willing to try something unfamiliar or travel to a new place.

KEY TRANSIT FACTORS

♆ Neptune ♂ Opposition ♅ natal Uranus

Right now you are caught between wanting to break free and feeling too confused to know which way to go. Your usual ability to spot what needs to change is clouded by **vague doubts and second-guessing**, so you either act on half-formed ideas or freeze completely. Over the coming weeks, expect to feel frustrated with yourself for not moving forward, and frustrated with others for not understanding your sudden shifts in direction.

♇ Pluto ♂ Quincunx ☾ natal Moon

These days you feel like your emotions don't quite fit the situation, so you keep adjusting how you respond to people without really understanding why. Your instinct is to **control how much you show of yourself**, which can leave you feeling disconnected even in conversations that matter. Over the coming weeks, noticing this pattern of holding back will help you figure out what you actually need rather than just managing what others might think.

♂ Mars * Sextile ♅ natal Uranus

Right now you find it easier to act on your unconventional ideas without overthinking them, and people respond well to your **refreshing directness**. You're willing to try new approaches at work or in your routines, and small experiments often lead somewhere useful rather than nowhere. This window won't last long, so these are good weeks to pitch that different idea or shake up something that's been stuck in the same pattern.

☉ Sun ☐ Square ☿ natal Mercury

Right now you're finding it hard to say what you actually mean, and people keep misunderstanding you even when you're trying to be clear. Your **thoughts feel scattered and your words come out wrong**, which makes conversations frustrating for everyone involved. Over the coming weeks, you'll need to slow down and write things out or repeat yourself more often, because your usual way of communicating just isn't landing.

♀ Venus ♂ Conjunction ♆ natal Neptune

You may find yourself **drawn to people who seem more interesting or attractive than they actually are**, and it takes real effort to see them clearly right now. Your taste in music, art, or aesthetics becomes softer and more sentimental while this lasts, which can feel pleasant but also make you less critical. Over the coming weeks, check in with yourself about whether your feelings match reality or if you are filling in blanks with what you hope to find.

♄ Saturn Rx · ♉ Taurus

Long-term financial structures, material commitments, and patterns of security are under review during this period. What you have been relying on for stability may require more active maintenance than you had assumed. Honest reckoning with resources and long-term obligations is the most useful work you can do right now.

☉ Sun ☌ Conjunction ☾ Moon

These days you feel more **aligned between what you want and what you feel**. Your emotional needs and your sense of direction match up, so you act with fewer doubts and less second-guessing yourself. This is a practical advantage when you need to make a choice or move forward on something that matters to you.

☉ Sun * Sextile ♂ Mars

Right now you find it easier to **take action on things you actually want** instead of sitting with them in your head. Your motivation and your confidence are aligned, so when you decide to do something, your body follows without the usual resistance. This is a practical window for starting projects, having difficult conversations, or pushing through work that needs momentum.

☉ Sun △ Trine ♂ Uranus

Right now you feel comfortable taking risks that normally make you anxious, and **you speak up about ideas you'd usually keep quiet**. Other people seem more receptive to what you have to say, and conversations naturally veer toward what could happen instead of what has always happened. This is a good time to propose changes at work, try something new socially, or make a practical decision you've been putting off.

LUNAR DAY

Moon in ♎ Libra · Day 30 / 30 · Waning Crescent

The social atmosphere becomes more diplomatic during this transit, with more care taken to avoid unnecessary friction. Decisions slow down as multiple perspectives get weighed, and outright conflict feels harder to initiate than usual.
