## KEY TRANSIT FACTORS

### ☾ Moon ♂ Conjunction ☉ natal Sun

Your **emotional needs feel more visible and urgent** right now, and people around you pick up on what you're feeling without you having to explain much. You may act on impulses or speak your mind faster than usual because your feelings are closer to the surface. This period lasts days to a week or two, and it's a natural time to check in with yourself about what you actually need.

### ☾ Moon ♂ Conjunction ☿ natal Mercury

Your thoughts feel more connected to what you're actually feeling right now, making conversations easier and more honest. You'll notice you're **talking more openly about personal things** and people seem to understand you better without needing explanations. Over the coming weeks, this natural flow between your mind and emotions will fade, so use it while you have it to sort out anything you've been holding back.

### ♀ Venus ☐ Square ☾ natal Moon

Right now you're more critical of the people close to you, especially about how they show affection or support you. You might push away someone who's trying to help because you **feel disconnected from what they're offering**, even if it's genuinely good. This frustration can make you withdraw or say things you regret, so it helps to notice when you're in this mood before you act on it.

### ♇ Pluto ☐ Square ♇ natal Pluto

Right now you are **fighting against your own need to control things**, and this makes everyday situations feel like power struggles. You might find yourself pushing harder in relationships or at work, only to meet resistance that frustrates you more. While this lasts, the practical lesson is that forcing your agenda does not work—stepping back and observing what is actually happening around you will show you where you have real influence and where you do not.

### ♇ Pluto ♂ Quincunx ♆ natal Neptune

Right now you're noticing gaps between what you imagined and what's actually happening in your life. You feel **pulled to question beliefs or habits you've relied on**, even though you can't quite explain why they suddenly feel wrong. Over the coming weeks, expect to feel unsettled about plans or ideas until you adjust them to match reality more closely.

### ♄ Saturn Rx · ♏ Sagittarius

Beliefs that have been functioning as unexamined rules are being tested for their actual utility right now. Long-term plans based on optimistic assumptions may need grounding in more realistic evaluation. Honest review of what you have committed to — in education, philosophy, or travel — is more productive than continuing forward without looking back.

### ☉ Sun ☐ Square ♃ Jupiter

Right now you're likely **overestimating what you can handle** and taking on more than makes practical sense. *Sun* square *Jupiter* pushes you to act bigger and bolder than your actual circumstances support, which sets you up for overcommitment and disappointment. The friction here teaches you where your real limits are, but only after you've already stretched too far.

### ☉ Sun △ Trine ☿ Uranus

Right now you feel comfortable taking risks that normally make you anxious, and **you speak up about ideas you'd usually keep quiet**. Other people seem more receptive to what you have to say, and conversations naturally veer toward what could happen instead of what has always happened. This is a good time to propose changes at work, try something new socially, or make a practical decision you've been putting off.

### ☉ Sun □ Square ♄ Chiron

Right now you are more aware of your own weak spots and past hurts, which makes it harder to feel confident in what you're doing. You might find yourself **second-guessing your choices** or feeling like you're not good enough, even when you're performing well. This psychological self-doubt is temporary, but it takes real effort to push through it and keep moving forward.
