## KEY DATE

### ♃ Jupiter enters ♊ Gemini

*Jupiter* in *Gemini* brings a **push to learn and talk more** — people often pick up new skills, start courses, or get chattier about ideas they care about. At work and in relationships, you'll notice a real **appetite for variety** and moving between different projects or conversations instead of staying focused on one thing for long. *Jupiter's* influence here makes **communication pay off**, so people who write, teach, negotiate, or network tend to see concrete opportunities show up.

## KEY TRANSIT FACTORS

### ☉ Sun qx Quincunx ☿ natal Mercury

While this lasts, you find it hard to explain what you actually mean, even though your thoughts feel perfectly clear inside your head. People misunderstand you more often than usual, and you might notice yourself **rephrasing things multiple times** without getting your point across any better. The mismatch between what you think and what comes out of your mouth will probably frustrate you until this period passes.

### ♊ NNode ☐ Square ♆ natal Neptune

Right now you are drawn to **vague promises and unclear commitments** that later fall apart, leaving you frustrated and mistrustful. Your instinct to believe in people's good intentions keeps colliding with the reality that they have not actually committed to anything concrete. These days the gap between what you hope will happen and what people are actually willing to do feels wider than usual, and it is making you question whether you are naive or whether others are simply evasive.

### ♊ NNode qx Quincunx ♇ natal Pluto

Over the coming weeks, you may feel pulled in two directions when it comes to control and letting go. You want to move forward in a new direction but find yourself **reluctant to release old patterns** that feel familiar. This discomfort is real, and pushing too hard to change things quickly will only create more friction with yourself.

### ♃ Jupiter qx Quincunx ☿ natal Mercury

Right now your thinking feels scattered when you try to tackle detailed work or organize your thoughts. You may notice yourself making careless mistakes in writing or communication because your **attention keeps jumping between ideas** instead of staying focused. Over the coming weeks, double-checking your work and writing things down before speaking will help you actually complete what you start.

### ♃ Jupiter ☐ Square ♄ natal Saturn

Right now you're caught between wanting to expand and feeling held back by practical limits. You may **overcommit yourself** and then run into real obstacles that force you to cut back, leaving you frustrated. These next weeks will test whether you can push forward responsibly or if you'll waste energy fighting against real constraints.

## ♄ Saturn Rx · ♊ Sagittarius

Beliefs that have been functioning as unexamined rules are being tested for their actual utility right now. Long-term plans based on optimistic assumptions may need grounding in more realistic evaluation. Honest review of what you have committed to — in education, philosophy, or travel — is more productive than continuing forward without looking back.

### ☉ Sun ☐ Square ☾ Moon

Right now your gut feelings and your sense of purpose are pulling in opposite directions. You might feel irritated with people close to you without knowing exactly why, or snap at someone when you meant to stay calm. This friction between what you want to do and what feels emotionally safe can push you to make real changes, but only if you stop and actually listen to both sides instead of just reacting.

### ☉ Sun △ Trine ♂ Mars

Right now you feel **capable and ready to act** on things you've been thinking about. You have the psychological boost to start projects or push through obstacles without burning out or getting frustrated. This period makes practical effort feel natural instead of forced.

### ☉ Sun \* Sextile ♃ Jupiter

These days you feel more **willing to take reasonable risks** and try things you've been putting off. People around you seem more generous with their time and help, making it easier to move forward on practical goals. This period brings a straightforward boost to your confidence without the pressure to overcommit or perform.

## LUNAR DAY

Moon in ♏ Scorpio · Day 8 / 30 · First Quarter

**Psychological intensity rises** for the next 48 hours, and surface-level talk becomes noticeably less satisfying. People read into what others leave unsaid more than usual, and private matters feel more pressing.
