KEY DATE

☉ Sun enters ♊ Gemini

Sun in *Gemini* brings a **shift toward curiosity and talking things through** — you'll notice people asking more questions, starting conversations they'd normally skip, and wanting to understand how things work. At work and in relationships, **communication becomes easier and faster**, though the downside is that people scatter their attention across more projects and topics than they can actually finish. **Short trips, emails, and quick decision-making** pick up noticeably during this month, so if you've been putting off organizing your schedule or catching up with contacts, this is when that restless energy makes it feel natural.

KEY TRANSIT FACTORS

♄ Saturn △ Trine ♁ natal Chiron ★

Right now you are **more willing to sit with your own pain without needing to fix it immediately**, which lets you actually learn from past hurts instead of just moving past them. This practical acceptance means you can talk about difficult experiences with less defensiveness and help others do the same. Over the coming weeks, what once felt raw or tender becomes something you can work with directly.

♄ Saturn ★ Sextile ♃ natal Jupiter ★

Right now you are more **willing to follow through on plans instead of abandoning them halfway**. The combination of *Saturn* and *Jupiter* means you can see the practical steps needed to make your bigger ambitions real, and you have the patience to stick with them. This is a good time to commit to something you have been thinking about for a while, because your confidence in the outcome is realistic rather than wishful.

♄ Saturn △ Trine ♀ natal Mercury ★

Your thinking becomes more organized and methodical right now, making it easier to work through complex problems without getting distracted. You find yourself **naturally able to follow through on plans** and communicate what you actually mean instead of talking in circles. This period is ideal for learning something practical or finishing projects that require sustained focus and clear explanations.

♄ Saturn △ Trine ☉ natal Sun ★

Right now you find it easier to **follow through on what matters to you**, and people notice the difference in your reliability. Your practical sense is sharp, so you can see which goals are actually worth your time and which ones to drop without guilt. Over these coming weeks, you're building real credibility because you do what you say you will do.

♇ Pluto △ Trine ♄ natal Saturn

You find it easier right now to stick with difficult tasks without losing confidence in yourself. **You work with steady focus** on what actually matters, turning big goals into concrete steps. This period supports you in building something real that lasts, whether at work or in how you organize your life.

♃ Jupiter Rx · ♄ Capricorn

Ambitions and long-term structures built on optimistic assumptions are being tested right now. Career growth or institutional commitments that seemed on track may require more realistic adjustment than you had planned. Reviewing what is genuinely working in your long-term strategy before continuing to build is the most productive use of this period.

☉ Sun □ Square ♄ Saturn

Right now you're running into real obstacles when you try to move forward with what you want. **You feel blocked by rules, other people's expectations, or your own self-doubt**, and pushing harder usually just makes things worse. The practical thing to do is slow down, check what's actually realistic, and accept that some goals need more time or a different approach.

☉ Sun ☿ Quincunx ♇ Pluto

Right now you might feel **out of step with your own needs**, as if what you want and what's actually happening don't quite match up. You notice yourself making small adjustments to stay in control of a situation, only to realize those tweaks aren't really working. This mismatch between your intentions and real results can leave you feeling frustrated until you accept that some things need to shift more completely than you planned.

☾ Moon ☿ Opposition ♀ Mercury

Right now your feelings and your thoughts are pulling in different directions, which makes it hard to say what you actually mean. You might feel upset about something but explain it in a way that sounds cold or defensive, so people don't understand what's really bothering you. This mismatch between what you feel and what you say creates **confusion in conversations**, and you'll likely need to circle back later to clear things up.
