KEY TRANSIT FACTORS

♂ Mars ☐ Square ☾ natal Moon · peak 1 Feb ★

Right now you are **more irritable than usual**, especially when someone questions your feelings or tells you to calm down. Your emotional reactions feel faster and stronger, and you may say things in anger that you later regret. Over the coming weeks, watch for moments when you're snapping at people close to you over small things that normally wouldn't bother you.

♃ Jupiter ☿ Quincunx ♅ natal Uranus · peak 1 Feb

Over the coming weeks you feel pulled toward making changes but run into practical obstacles that slow you down. Your impulse to break free from routine collides with real constraints like money, time, or other people's expectations. You might feel restless and frustrated because what you want to do does not line up with what is actually possible right now.

♃ Jupiter ♁ Opposition ♇ natal Pluto · peak 10 Feb

You're running into situations where your confidence in yourself collides head-on with other people's resistance or control attempts. **You're more likely to push back against anyone who feels threatening**, which can escalate conflicts that might have stayed small. While this lasts, you'll notice that your usual way of managing power dynamics stops working, and you may feel forced to choose between backing down or fighting harder than you normally would.

♃ Jupiter △ Trine ♆ natal Neptune · peak 10 Feb

Over the coming weeks, you find it easier to **believe in your own ideas** without needing constant proof or reassurance. Your imagination feels more practical right now, and you can turn vague daydreams into actual plans that other people take seriously. This is a good time to pitch something creative or intuitive that you've been sitting on, because people around you are more receptive to what you're offering.

♄ Chiron * Sextile ☾ natal Moon · peak 29 Feb

Right now you find it easier to talk about things that usually upset you, and people actually listen instead of dismissing your feelings. Your **emotional honesty** becomes something others trust rather than fear, and that creates real closeness in your relationships. This window won't last forever, so these are good weeks to have the conversations you've been putting off.

♃ Jupiter ∟ Semi sextile ☾ natal Moon · peak 1 Feb

You find it easier to ask for what you need right now, and people tend to respond well when you do. Your mood is steadier than usual, which makes **speaking up about emotional concerns feel less risky**. Over the coming weeks, small conversations that might normally feel awkward often lead to genuine support instead.

♄ Chiron △ Trine ♅ natal Uranus · peak 29 Feb

You find it easier to **think clearly about what you actually want to change** in your life without getting stuck in doubt or fear. Your practical side connects with your need for independence, so you can plan real steps toward breaking old patterns instead of just daydreaming about them. These days you notice you're less defensive about feedback and more willing to try new approaches, which makes tackling problems feel less exhausting.

♅ Pluto △ Trine ♃ natal Moon · peak 1 Feb

These days you find it easier to **act on what you actually feel** instead of hiding or dismissing your emotions. People around you notice you seem more direct and honest about what matters to you, and they tend to respond well to this straightforwardness. Over the coming weeks, situations that once felt emotionally stuck start to move forward because you're not holding back anymore.

♅ Pluto * Sextile ♃ natal Uranus · peak 1 Feb

Right now you find yourself **willing to act on ideas you've been sitting with for months**, and the practical timing seems to line up surprisingly well. You're more comfortable than usual taking small risks or changing routines that no longer work, and people around you notice you seem decisive instead of stuck. These days this period gives you real momentum to experiment with new approaches in your work or daily habits without the usual second-guessing holding you back.

♆ Neptune ∟ Semi sextile ♅ natal Pluto · peak 1 Feb

These days you find it easier to **let go of control** in situations where you've been holding tight for too long. Small shifts in your practical routines or relationships feel natural rather than forced, as if you're finally allowing things to move at their own pace. Over the coming weeks, this lighter approach helps you see what actually needs to change and what you can safely release.

♁ NNode ∟ Semi sextile ♂ natal Mars · peak 1 Feb

Over the coming weeks, you find yourself **more willing to take small risks and speak up for what you want**. People around you seem to respond better to your directness, and you notice you're not second-guessing yourself as much. This is a natural window where your practical confidence gets a gentle push forward, making it easier to pursue goals you've been putting off.

♄ Chiron qx Quincunx ♁ natal NNode · peak 1 Feb

Over the coming weeks, you feel pulled in two directions about your social role and where you fit in. You notice yourself second-guessing decisions about groups or communities you belong to, even though you usually know what you want. This **uncomfortable self-doubt** is temporary, and it often signals that some adjustment to how you present yourself socially is actually needed.

♆ Neptune ∟ Semi sextile ♆ natal Neptune · peak 1 Feb

Your **intuition about people feels unusually reliable** right now, and you find yourself noticing things others miss in conversations and social situations. You're picking up on subtle emotional cues without trying, which makes you more naturally attuned to what others actually need rather than what they say they need. This quiet perceptiveness helps you connect with people in a genuine way and gives your relationships a softer, more understanding quality over these coming weeks.

♁ NNode □ Square ♁ natal NNode · peak 1 Feb

Right now you feel pulled in two directions about what you should be doing with your time and energy. You might say yes to commitments that conflict with each other, or feel **restless and unable to settle** on a clear priority. Over the coming weeks, this confusion usually pushes you to make a hard choice about which direction actually matters to you.

♄ Chiron qx Quincunx ♂ natal Mars · peak 1 Feb

Right now you're noticing that your usual way of pushing forward doesn't feel quite right, and small physical frustrations keep showing up where you'd normally feel confident. Your body might feel slightly off-beat with what your mind wants to do, making you **more aware of how you move and act** than usual. Over the coming weeks, this mismatch between intention and execution can actually help you spot habits that have been holding you back if you pay attention to what feels clunky.

LUNATIONS

● New Moon · Friday, 14 Feb

in ♒ Aquarius

innovation, social ideals, future direction

in H1 — Self & Identity

A new cycle is opening around your sense of self and how you present to the world. This is the right moment to redefine how you want to be seen and to take deliberate steps toward a fresh start in your personal goals. **Physical changes, new habits, and shifts in your self-image** are all supported now. What you begin under this lunation has a direct impact on your confidence and direction for the next six months.

○ Full Moon · Thursday, 27 Feb

in ♍ Virgo

work results, health review, critical peak

in H7 — Partnerships

A significant relationship is reaching a turning point. Something between you and a partner, collaborator, or significant other is being fully illuminated — what's been working, what hasn't, and what needs to change. This full moon often brings a relationship decision to the surface: a commitment deepening, a conflict coming to a head, or a partnership reaching its natural conclusion. See clearly what's actually in front of you, not what you've hoped it would become.

KEY DATES

Tue, 11 Feb ☿ Mercury enters ♒ Aquarius

♀ Venus enters ♈ Aries

Mercury in Aquarius brings clearer, more direct communication — people tend to say what they actually think instead of softening their words, which works well in meetings but can feel blunt in casual conversations. At work and in friendships, you'll notice more focus on logic and ideas rather than emotions, making this a good time for problem-solving but a trickier period if someone needs emotional support. Aquarius also pushes thinking toward the bigger picture, so conversations shift from daily complaints to plans, systems, and what-if scenarios that feel more interesting but less immediately practical.

Fri, 14 Feb ☾ New Moon in Aquarius

Wed, 19 Feb ♆ Neptune stations Retrograde

Neptune stationing retrograde marks the point where clarity takes a step back in the areas it governs — dreams, beliefs, creativity, and what you're willing to believe about yourself or others. During this period, people often notice confusion returning to situations they thought were settled, delays in creative projects, or the need to rethink agreements that felt unclear to begin with. Neptune retrograde typically brings reality checks that strip away wishful thinking, so you may spot where you've been fooling yourself or where someone else's promises don't actually add up.

Thu, 20 Feb ☼ Sun enters ♓ Pisces

♂ Mars enters ♓ Pisces

The Sun moving into Pisces shifts attention toward listening and flexibility for the next month, making people naturally more willing to adjust plans instead of pushing forward rigidly. At work and in relationships, you'll notice others become harder to pin down — deadlines slip, people change their minds, and vague agreements replace firm commitments, which requires patience rather than frustration. Pisces season softens the usual drive to compete or win, so collaboration and going with the flow tend to work better than direct pressure during this time.
