## KEY TRANSIT FACTORS

### ♀ Venus \* Sextile ♀ natal Venus

You feel more **at ease in social situations** right now, and other people pick up on this relaxed confidence. Your conversations flow more naturally, and you find yourself saying yes to invitations you might normally skip. This is a good window to deepen friendships, start something romantic, or simply enjoy being around the people you care about without the usual self-doubt.

### ♁ NNode △ Trine ♀ natal Pluto

You find it easier right now to **face difficult truths about yourself without feeling defensive**. People respond well when you talk about what you actually want instead of what you think you should want. Over the coming weeks, this honesty opens doors that staying quiet would have kept closed.

### ♃ Jupiter ∟ Semi sextile ♄ natal Saturn

Over the coming weeks, you find it easier to follow through on practical plans without getting overwhelmed by all the details. *Jupiter* is giving you just enough optimism to balance *Saturn's* caution, so you can **move forward steadily while staying realistic** about what you can actually do. This is a good time to tackle a project that requires both confidence and discipline, because you naturally trust your own judgment right now.

### ☿ Mercury ♂ Conjunction ♁ natal NNode

Right now you're more willing to speak up about things that matter to you, and people are actually listening. You find yourself **saying what you really think** instead of holding back, and conversations feel more direct and honest. Over the coming weeks, this clarity in how you communicate can help you build connections with people who share your actual interests and values.

### ♂ Mars ♂ Quincunx ♀ natal Pluto

You feel a disconnect between what you want to do and what actually works, making it hard to push forward on projects or goals. Your usual drive feels misaligned with deeper patterns in your life, so **you keep starting things only to realize they need reworking**. Over the coming weeks, the practical fix is to slow down and check whether your current direction matches what you actually want long-term.

### ☉ Sun □ Square ♃ Jupiter

Right now you're likely **overestimating what you can handle** and taking on more than makes practical sense. *Sun* square *Jupiter* pushes you to act bigger and bolder than your actual circumstances support, which sets you up for overcommitment and disappointment. The friction here teaches you where your real limits are, but only after you've already stretched too far.

### › Moon ☾ Quincunx ♀ Venus

Right now your emotional needs and what you want socially are slightly out of sync, so you might feel pulled in two directions. You could notice yourself wanting comfort and closeness at times when you'd rather stay independent, or the opposite. This **mismatch between feeling and wanting** is temporary, and noticing it is the first step to working with it instead of against it.

### › Moon ☾ Quincunx ♂ Mars

These days you might feel **restless without knowing why**, like your emotions want something your body isn't ready to deliver. Small tasks feel either pointless or urgent depending on your mood, and you could snap at someone over something that wouldn't normally bother you. The mismatch between what you feel like doing and what actually needs doing right now creates a practical friction that's hard to sit with.

**The social atmosphere becomes more expressive** these days, with people more willing to share opinions and put themselves forward. The need to feel appreciated surfaces in small ways — a slower response to criticism, a stronger preference for being noticed.
