KEY TRANSIT FACTORS

♂ Mars qx Quincunx ♁ natal NNode ★

Over the coming weeks, you may notice yourself **pushing harder toward goals that don't quite fit what you actually want**. Your drive and impatience are working against your natural instincts about which direction makes sense for you. This friction usually passes as you learn to slow down and check whether your effort is pointed the right way.

☾ Moon qx Quincunx ♅ natal Uranus ★

While this lasts, you feel **restless in situations that normally feel comfortable**, and small changes in your routine bother you more than usual. Your mood swings between wanting everything to stay exactly the same and suddenly wanting to shake things up completely. These contradictory impulses can leave you feeling unsettled, so notice when you're reacting to actual problems versus just needing to move your body or change your environment.

♅ Uranus ♁ Opposition ♀ natal Venus

Right now you feel **restless in your closest relationships** and may push away people you normally rely on. You want more freedom or something completely different from what your partner or friends expect, and this clash makes everything feel tense. Over the coming weeks, familiar patterns in how you connect with others will feel uncomfortable, and you might make sudden changes you later question.

♀ Venus qx Quincunx ♀ natal Venus

Over the coming weeks, you might feel slightly off about what usually makes you happy, whether that's social time, physical affection, or how you spend money. You may become **restless with familiar routines** and find yourself wanting something different without quite knowing what. This awkward feeling typically pushes you to adjust how you approach relationships or self-care rather than change them completely.

♃ Jupiter ♁ Opposition ♃ natal Jupiter

You're running into a wall with your own optimism right now, and it's forcing you to face where you've been overcommitting or overestimating what you can handle. Your usual confidence in your ability to expand into new projects or relationships feels **blocked by practical reality**, which makes you restless and frustrated. Over the coming weeks, you'll need to scale back your ambitions and deal with the consequences of promises you made when your expectations were higher.

☉ Sun ∠ Semi sextile ♀ Venus

Right now you find it easier to notice what you like about people around you, and that makes your social interactions feel smoother. You're more likely to **compliment someone without overthinking it** or suggest doing something enjoyable together. This isn't a dramatic shift, but these days small acts of kindness and warmth come more naturally to you.

☉ Sun ☌ Conjunction ☿ Uranus

At the moment, you feel **restless and impatient with routines that normally work fine**. You might suddenly want to change something about how you look, where you work, or how you spend your time, even if there's no real problem. This push to break free or do something different is normal right now, so notice what you actually want to change versus what's just nervous energy looking for an outlet.

☉ Sun * Sextile ♄ Chiron

Right now you find it easier to talk about things that usually stay hidden, and people respond by listening instead of dismissing you. Your **willingness to admit weakness** actually makes others trust you more because you seem real. This is a good time to ask for help with something you have been carrying alone, because the practical support tends to show up.

LUNAR DAY

Moon in ♋ Pisces · Day 2 / 30 · New Moon

The boundary between personal and environmental moods blurs during this transit, making it easy to absorb the emotional state of whoever is nearby. Imagination and sensitivity both run higher, while clarity of thought and decision-making run lower for the next 48 hours.
