KEY TRANSIT FACTORS

☾ Moon qx Quincunx ♂ natal Uranus ★

While this lasts, you feel **restless in situations that normally feel comfortable**, and small changes in your routine bother you more than usual. Your mood swings between wanting everything to stay exactly the same and suddenly wanting to shake things up completely. These contradictory impulses can leave you feeling unsettled, so notice when you're reacting to actual problems versus just needing to move your body or change your environment.

☾ Moon qx Quincunx ♀ natal Venus ★

Right now your emotional needs and what you want from relationships are pulling in different directions, and you feel the mismatch. You might feel **restless in social situations** or notice you're not getting satisfaction from the usual things that comfort you. Over the coming weeks, this awkwardness will fade, but for now it's worth noticing what feels off instead of forcing connection.

♃ Jupiter qx Quincunx ♁ natal Chiron

You find yourself **overestimating what you can help others fix**, especially in situations where someone else needs to do their own work. Your confidence in giving advice or support grows, but you often miss the signs that people need to figure things out themselves. Over the coming weeks, you may feel frustrated when your generous efforts don't produce the results you expected.

☿ Mercury ☐ Square ♂ natal Uranus

Right now your thinking is scattered and you jump between ideas without finishing them, which makes it hard to explain what you actually want to others. You feel **restless and impatient** with normal conversation, often blurting out opinions you later regret or missing what someone else is trying to tell you. Over the coming weeks, this mental friction could damage plans or relationships if you don't write things down before you speak or act on them.

♃ Jupiter qx Quincunx ♄ natal Saturn

Over the coming weeks, you feel caught between wanting to expand and needing to play it safe. You might say yes to an opportunity at work or in a relationship, then immediately feel anxious about whether you can actually handle it. **This creates a practical tension where you're pulling yourself in opposite directions**, making it hard to commit fully to new plans or let yourself relax into them.

☉ Sun ∟ Semi sextile ☿ Mercury

These days you find it easier to **say what you actually think** without overcomplicating things or getting stuck in your own head. Your mind and sense of purpose line up naturally, so explaining yourself to others feels straightforward rather than exhausting. This is a good window for conversations, presentations, or decisions where you need to be both clear and confident about what matters to you.

☉ Sun □ Square ♃ Jupiter

Right now you're likely **overestimating what you can handle** and taking on more than makes practical sense. Sun square Jupiter pushes you to act bigger and bolder than your actual circumstances support, which sets you up for overcommitment and disappointment. The friction here teaches you where your real limits are, but only after you've already stretched too far.

☾ Moon * Sextile ♿ Mercury

These days your thoughts feel clearer and your feelings find words more easily than usual. You notice you can **explain what you're going through without getting stuck or defensive**, and other people seem to understand you better. This is a good time to have conversations that matter, because both your head and your heart are on the same team right now.
