KEY TRANSIT FACTORS

☉ Sun ☿ Conjunction ♇ Pluto ★

These days you're more aware of what actually matters to you and less willing to pretend otherwise. You may feel **driven to make real changes** — dropping habits that feel fake or relationships that drain you — even if it makes things uncomfortable for a while. This isn't about drama; it's about wanting your life to match what you actually believe.

♀ Venus ♁ Quincunx ☉ natal Sun

These days you feel **slightly out of sync with what you normally want**, making social and romantic situations feel awkward even when they shouldn't. You might attract attention from others but struggle to enjoy it the way you usually do, or find yourself wanting closeness while also wanting space. This mismatch between your confidence and your social comfort will ease once this period passes.

☾ Moon ★ Sextile ♁ natal NNode

You find it easier right now to **act on what feels right to you** without second-guessing yourself. Your gut instinct about people and situations is sharper than usual, and you're more likely to trust it. Over the coming weeks, this natural confidence helps you move toward the things you actually want instead of getting stuck in old patterns.

♇ Pluto ♁ Quincunx ♅ natal Uranus

You feel pulled between wanting to break free from something and not knowing exactly what to change or how. This inner restlessness can make you **act impulsively on plans that aren't fully thought through**, only to second-guess yourself days later. Over the coming weeks, small adjustments to your routines or relationships will feel more useful than any dramatic moves.

♁ NNode ♁ Quincunx ☾ natal Moon

Over the coming weeks, you'll notice your usual emotional comfort habits don't quite work the way they normally do. You might feel pulled toward new social connections or group activities that don't match your typical preference for familiar people, leaving you **restless and slightly off-balance**. The mismatch between what feels safe emotionally and what seems important to pursue socially will gradually push you toward small changes in how you relate to others.

♁ Chiron ♁ Quincunx ♅ natal Uranus

You feel uncomfortable with your usual ways of doing things, even though you can't quite explain why. These days you notice yourself wanting to break free from routines that normally work for you, which creates **practical friction between your need for stability and your urge to change direction**. Over the coming weeks, small adjustments in how you handle independence or unconventional choices will feel necessary, even if they don't come naturally to you right now.

♃ Jupiter Rx · ♌ Leo

Creative confidence and the desire to be seen or celebrated retreat inward during this period. Projects that were expanding boldly may need a quieter phase of consolidation and honest self-review. Evaluating what you are genuinely proud of versus what requires more work is the most honest use of this time.

☉ Sun ☌ Quincunx ☌ Jupiter

These days you feel pulled between wanting to take action and doubts about whether you're doing enough, which can leave you **restless and second-guessing your choices**. Your confidence in what you're doing right now doesn't quite match what you think you should be doing, so you might start something and then hesitate or change direction. This mismatch between your actual situation and your sense of what's possible tends to create practical friction rather than clear obstacles.

☉ Sun * Sextile ☌ Chiron

Right now you find it easier to talk about things that usually stay hidden, and people respond by listening instead of dismissing you. Your **willingness to admit weakness** actually makes others trust you more because you seem real. This is a good time to ask for help with something you have been carrying alone, because the practical support tends to show up.

* = natal resonance — this transit echoes your birth chart, amplifying its influence

LUNAR DAY

Moon in ♌ Leo · Day 18 / 30 · Full Moon

The social atmosphere becomes more expressive these days, with people more willing to share opinions and put themselves forward. The need to feel appreciated surfaces in small ways — a slower response to criticism, a stronger preference for being noticed.
