KEY DATE

♂ Mars enters ♋ Cancer

Mars in *Cancer* shifts how people push forward — instead of charging ahead, they move with **more caution and emotion**, checking in with themselves and others before acting. At work and in relationships, you'll notice people becoming **protective of what matters**, defending ideas or loved ones rather than starting new fights, and taking longer to make decisions because feelings are wrapped up in every choice. This transit typically brings **slower progress but steadier effort**, since *Mars* in *Cancer* keeps going even when tired, fuelled by loyalty and what feels personal rather than pure ambition.

KEY TRANSIT FACTORS

♀ Venus △ Trine ♃ natal Saturn ★

Right now you find it easier to be **reliable and steady in your relationships**, and people notice. Your tendency to follow through on commitments feels natural rather than forced, which builds real trust with the people around you. These practical demonstrations of care—showing up, being consistent, keeping your word—actually deepen your connections more than grand gestures ever could.

♀ Venus ☌ Opposition ♁ natal Chiron ★

Right now you're noticing that people respond differently to you than usual, and it feels uncomfortable because old insecurities about your **likability and self-worth** are surfacing. You might find yourself either trying too hard to be liked or pulling away from social situations altogether, which makes real connection harder rather than easier. Over the coming weeks, this friction is an opportunity to see where you've been hiding your actual personality to fit in, but it will not feel good while it's happening.

♀ Venus ♀ Quincunx ☾ natal Moon ★

Over the coming weeks, you may find your usual way of showing affection feels slightly off or awkward. You might want closeness but struggle to express it in ways that actually land with the people you care about. Small adjustments to how you approach relationships will help you feel more comfortable.

☾ Moon ♀ Quincunx ☾ natal Moon

At the moment your emotional reactions feel slightly out of step with what your surroundings actually call for. You might find yourself **feeling restless or defensive in situations that don't warrant it**, or staying calm when something genuinely bothers you. Over the coming weeks, small adjustments to how you respond—pausing before reacting, checking in with yourself about what you actually need—will smooth things out considerably.

♀ Venus ♂ Conjunction ♀ natal Venus

Right now you're more **willing to say yes to social invitations and physical affection**, and people tend to respond warmly to you. You feel genuinely more comfortable in your own skin, so you attract attention without trying hard. Over the coming weeks, this is a natural time to deepen relationships or start something new, because you're showing up as your most relaxed self.

♄ Saturn Rx · ♏ Scorpio

Deep psychological structures — the ways you manage power, control, and shared resources — are under quiet but significant review right now. Commitments made at depth, financial obligations, or emotional contracts with others demand careful attention. Unacknowledged patterns of control or avoidance are being surfaced for honest examination.

☉ Sun ♂ Conjunction ♂ Mars

Right now you feel **more direct and willing to take action** on things you normally hesitate about. You're likely to speak up in conversations, push forward with a project, or make a decision you've been putting off. This practical confidence usually fades once the transit passes, so use it to handle what actually needs doing.

☉ Sun ☿ Quincunx ♄ Saturn

Right now you feel a mismatch between what you want to do and what seems practical or allowed. You might push forward with a plan only to run into a real obstacle that makes you reconsider, or hold back when you actually have a real opportunity. **This awkward timing between your drive and your responsibilities** means you cannot simply act on instinct—you need to adjust, compromise, or wait for better conditions.

☉ Sun ☐ Square ♁ NNode

These days you feel pulled between who you are right now and who you think you should become, and this gap creates real frustration. You might **resist feedback or advice** because accepting it feels like admitting you are not enough as you are. The practical result is that growth happens anyway, but it costs you energy and confidence in the short term.
