KEY TRANSIT FACTORS

☉ Sun △ Trine ☽ natal Uranus ★

Over the coming weeks, you feel more comfortable taking a different approach to something you've been doing the same way for years. Your **willingness to experiment without overthinking** makes it easy to try new methods at work or in your daily routine. This is a practical window where change feels natural rather than risky, so any updates or innovations you're considering have real momentum behind them.

♁ NNode qx Quincunx ☿ natal Mercury

Over the coming weeks, you'll notice your usual way of explaining things doesn't quite land the way it normally does. People seem to need you to say things differently than feels natural to you right now, which can be **awkward and frustrating** in conversations. The mismatch between what you want to communicate and what actually gets understood will push you to find new ways of thinking about how you talk to others.

☉ Sun △ Trine ☉ natal Sun

You feel **naturally confident** in who you are right now, and people respond to that ease in you. Your goals and what you actually want to do line up better than usual, so decisions feel less exhausting. Over the coming weeks you'll probably notice yourself moving forward on things without having to push so hard.

♀ Venus ♂ Conjunction ☾ natal Moon

These days you feel more **relaxed and affectionate** than usual, and people around you notice it too. You are more likely to reach out to friends and family, enjoy physical comfort, and feel satisfied with things that normally frustrate you. This shift lasts only a few weeks, so small gestures of warmth or time spent with people you care about will feel especially rewarding right now.

♃ Jupiter qx Quincunx ♂ natal Mars

Over the coming weeks, you may notice your usual drive and confidence don't quite match up with what's actually possible right now, leaving you **frustrated when plans don't move as fast as you want them to**. *Jupiter* is expanding your ambitions while *Mars* pushes for quick action, but the two are pulling in slightly different directions. You might waste energy on projects that start with excitement but need to be adjusted or abandoned halfway through.

☉ Sun ∠ Semi sextile ♃ Jupiter

These days you feel a bit more **optimistic about your abilities** and willing to take on new projects. Small wins come easier right now because you're not overthinking things or waiting for perfect conditions. This is a good time to start something you've been putting off, since your confidence has a gentle boost and you're likely to see early progress.

☉ Sun ♂ Conjunction ♁ NNode

Right now you feel drawn toward activities and people that match who you actually are rather than who you think you should be. This creates a practical opportunity to make small choices that align better with your real interests and strengths. These days many people find themselves being more direct about what they want, which can clear the air in relationships and work situations.

☾ Moon ♀ Semi sextile ♀ Venus

These days you find it easier to **say what you actually feel** without worrying so much about how it lands. The emotional and social parts of you are working together instead of against each other, so expressing affection or gratitude comes naturally. This is a good window for having honest conversations with people you care about without the usual awkwardness getting in the way.
