## KEY TRANSIT FACTORS

### ☉ Sun ∟ Semi sextile ♃ Mercury ★

These days you find it easier to **say what you actually think** without overcomplicating things or getting stuck in your own head. Your mind and sense of purpose line up naturally, so explaining yourself to others feels straightforward rather than exhausting. This is a good window for conversations, presentations, or decisions where you need to be both clear and confident about what matters to you.

### ☉ Sun ☿ Conjunction ♂ Mars ★

Right now you feel **more direct and willing to take action** on things you normally hesitate about. You're likely to speak up in conversations, push forward with a project, or make a decision you've been putting off. This practical confidence usually fades once the transit passes, so use it to handle what actually needs doing.

### ♀ Venus ☿ Conjunction ♃ natal Mercury

Right now you find it much easier to say what you actually think, and people respond well to your words. You're more **relaxed and charming** when you talk, which makes conversations feel natural instead of forced. Over the coming weeks, this is a good time to have conversations you've been putting off, since you'll handle them with more grace than usual.

### ♆ Neptune ☿ Quincunx ♁ natal Chiron

While this lasts, you may notice **difficulty separating your own pain from other people's problems**. You feel drawn to help or rescue someone, but the situation stays unclear and drains you without resolution. Over the coming weeks, set practical boundaries about what you can actually do rather than getting pulled into situations that feel emotionally important but ultimately aren't yours to fix.

### ♇ Pluto ☐ Square ♁ natal Chiron

Right now you're bumping up against old wounds that usually stay quiet, and it feels uncomfortable because you can't just ignore them the way you normally do. You might find yourself **overreacting to small slights or feeling defensive** about situations that wouldn't usually bother you. Over the coming weeks, this friction is forcing you to look at how you protect yourself—not to fix everything at once, but to notice where your defenses are actually holding you back from connecting with other people.

### ♁ Chiron △ Trine ♁ natal NNode

Over the coming weeks, you find it easier to **talk openly about your past struggles** without feeling ashamed or stuck. People around you respond well because you're speaking from real experience rather than theory. This practical honesty about what you've learned from difficulty actually helps others feel less alone in their own problems.

### ♁ Lilith ☿ Conjunction ☉ natal Sun

Over the coming weeks, you feel less interested in fitting in or softening your opinions to keep the peace. You're more likely to say what you actually think and **push back against rules or expectations that feel fake**. This directness can clear the air in relationships, but it may also create friction if people around you aren't used to seeing this side of you.

## ♄ Saturn Rx · ♍ Virgo

The systems and routines you rely on for health, work, and daily functioning are being tested for their genuine usefulness right now. Habits maintained out of routine rather than benefit deserve honest evaluation. Small corrections made now to health or work practices tend to produce more durable improvement than sweeping changes.

## ☉ Sun ☐ Square ♄ Chiron

Right now you are more aware of your own weak spots and past hurts, which makes it harder to feel confident in what you're doing. You might find yourself **second-guessing your choices** or feeling like you're not good enough, even when you're performing well. This psychological self-doubt is temporary, but it takes real effort to push through it and keep moving forward.

## LUNAR DAY

Moon in ♓ Pisces · Day 1 / 30 · New Moon

**The boundary between personal and environmental moods blurs** during this transit, making it easy to absorb the emotional state of whoever is nearby. Imagination and sensitivity both run higher, while clarity of thought and decision-making run lower for the next 48 hours.
