KEY DATE

☉ Sun enters ♓ Pisces

The Sun moving into *Pisces* shifts attention toward **listening and flexibility** for the next month, making people naturally more **willing to adjust plans** instead of pushing forward rigidly. At work and in relationships, you'll notice others become **harder to pin down** — deadlines slip, people change their minds, and vague agreements replace firm commitments, which requires patience rather than frustration. *Pisces* season softens the usual drive to compete or win, so **collaboration and going with the flow** tend to work better than direct pressure during this time.

KEY TRANSIT FACTORS

♊ NNode ☌ Opposition ♅ natal Uranus

Right now you are caught between wanting to rebel against your routine and feeling pressure to stick with what works, which creates real friction in your decisions. **You swing between sudden urges to change direction and anxiety about losing stability**, making it hard to commit to anything. Over the coming weeks, people around you may find you unpredictable or erratic, because you genuinely do not know which version of yourself will show up.

☉ Sun ☐ Square ♅ natal Uranus

Right now you feel restless with your usual routines and **resist what you normally accept without question**. You might pick fights with authority figures or suddenly reject plans you agreed to weeks ago, leaving people confused by your sudden change of mind. Over the coming weeks, this friction with the establishment or your own habits will force you to decide what you actually want instead of what you think you should want.

☾ Moon ∟ Semi sextile ♀ natal Venus

Right now you find it easier to **say what you appreciate about the people around you**, and they respond well to it. Your relationships feel a bit lighter because you're noticing the good things instead of focusing on problems. This natural warmth lasts only a few weeks, so it's a good time to strengthen bonds that matter to you.

♀ Venus * Sextile ♂ natal Mars

You're feeling **confident and direct about what you want**, which makes it easier to ask for things or take action without overthinking. People around you respond well to this combination of warmth and decisiveness, so conversations that usually feel awkward become straightforward. Over the coming weeks, you'll likely notice you're more willing to make a move on something you've been considering, whether that's starting a project or deepening a connection with someone.

☉ Sun ☿ Quincunx ☾ natal Moon

These days you feel slightly out of step between what you want to do and what you actually need emotionally. Your **restlessness shows up as difficulty settling into routines** that normally comfort you, like your usual sleep schedule or time with close people. Over the coming weeks, small adjustments to how you organize your day will help you feel more aligned with yourself.

☉ Sun ☌ Semi sextile ♀ Venus

Right now you find it easier to notice what you like about people around you, and that makes your social interactions feel smoother. You're more likely to **compliment someone without overthinking it** or suggest doing something enjoyable together. This isn't a dramatic shift, but these days small acts of kindness and warmth come more naturally to you.

☉ Sun ☐ Square ♁ NNode

These days you feel pulled between who you are right now and who you think you should become, and this gap creates real frustration. You might **resist feedback or advice** because accepting it feels like admitting you are not enough as you are. The practical result is that growth happens anyway, but it costs you energy and confidence in the short term.

☾ Moon ☌ Semi sextile ♂ Mars

These days you have a natural **willingness to take action on what matters to you emotionally**. You notice you can speak up about your needs without getting defensive, and people respond better because you sound calm instead of urgent. This period gives you just enough psychological momentum to move on something you've been sitting with for weeks.

LUNAR DAY

Moon in ♒ Aquarius · Day 29 / 30 · Waning Crescent

Emotional detachment increases these days, making abstract discussions and group concerns feel more engaging than personal ones. People respond better to logic than to feeling right now, and the need for independence runs noticeably higher.
