KEY TRANSIT FACTORS

☾ Moon ☾ Semi sextile ♀ natal Venus

Right now you find it easier to **say what you appreciate about the people around you**, and they respond well to it. Your relationships feel a bit lighter because you're noticing the good things instead of focusing on problems. This natural warmth lasts only a few weeks, so it's a good time to strengthen bonds that matter to you.

♁ Chiron ☌ Conjunction ♂ natal Mars

Right now you're noticing where you push too hard or hold back too much when you act. You might feel frustrated with yourself for either charging ahead without thinking or for being too cautious, and this **self-awareness about your own aggression** is temporary but useful. Over the coming weeks, pay attention to how you actually handle conflict or physical effort instead of assuming you know what you'll do.

♁ Chiron △ Trine ♁ natal Uranus

You find it easier to **think clearly about what you actually want to change** in your life without getting stuck in doubt or fear. Your practical side connects with your need for independence, so you can plan real steps toward breaking old patterns instead of just daydreaming about them. These days you notice you're less defensive about feedback and more willing to try new approaches, which makes tackling problems feel less exhausting.

♂ Mars ☌ Quincunx ♁ natal Chiron

Right now you're more aware of old hurts when someone pushes back against you or challenges your plans. You might notice yourself **reacting defensively to minor criticism** that you'd normally brush off. Over the coming weeks, this clash between your assertiveness and your sensitivity gives you a chance to see where you need better boundaries instead of just withdrawing or fighting back.

♁ Uranus ☌ Opposition ♀ natal Venus

Right now you feel **restless in your closest relationships** and may push away people you normally rely on. You want more freedom or something completely different from what your partner or friends expect, and this clash makes everything feel tense. Over the coming weeks, familiar patterns in how you connect with others will feel uncomfortable, and you might make sudden changes you later question.

☉ Sun △ Trine ♂ Mars

Right now you feel **capable and ready to act** on things you've been thinking about. You have the psychological boost to start projects or push through obstacles without burning out or getting frustrated. This period makes practical effort feel natural instead of forced.

☉ Sun * Sextile ♄ Saturn

Right now you find it easier to follow through on what you say you'll do, and people notice you're more reliable than usual. Your practical judgement is sharp, so **you can see what actually needs to happen** instead of getting distracted by what sounds exciting. This is the kind of period where effort pays off directly, so if you've been putting something off, the conditions are there to make real progress without burning yourself out.

☾ Moon ☌ Opposition ♃ Mars

Right now your **irritability is running high** and small annoyances feel like major problems. People around you seem to trigger you faster than usual, and you may snap at them or pick fights without meaning to. These days the gap between what you feel and what you're actually able to do creates real frustration, so patience is thin on the ground for everyone.

LUNAR DAY

Moon in ♈ Aries · Day 26 / 30 · Last Quarter

Impatience with delays rises noticeably right now, and people act on whatever they want without much advance thinking. Short tempers and blunt reactions are more common for the next 48 hours.
