KEY TRANSIT FACTORS

♅ Uranus ☐ Square ♃ natal Jupiter

Right now you are restless with your current plans and want to scrap them for something completely different, even when things are working reasonably well. You feel **impatient with limits** and may make sudden decisions about money, education, or travel that you have not fully thought through. Over the coming weeks, impulsive moves could create real practical problems that take time to fix.

☿ Mercury △ Trine ♂ natal Mars

Your mind works faster than usual right now, and you naturally pick the most direct way to say what you think. You get things done without overthinking because your words and actions line up perfectly. This is a good time to have difficult conversations or push a project forward since you come across as clear and confident.

♁ Chiron qx Quincunx ☿ natal Mercury

Right now you're noticing that your usual way of explaining yourself isn't landing the way it normally does, and it can feel **awkward to adjust how you communicate on the fly**. *Chiron* transiting at an angle to your natal *Mercury* means your thinking patterns are slightly out of sync with what others expect to hear. Over the coming weeks, patience with yourself during conversations will help more than trying to force clarity.

♅ Uranus ☐ Square ♄ natal Saturn

You feel a strong urge to break free from rules and structures you have relied on, even though loosening them creates real practical problems. **You become impatient with anything that feels restrictive**, whether it's a job routine, a commitment, or a financial plan you built carefully. Over the coming weeks, this friction between your need for stability and your need for change will push you to make decisions you have not fully thought through, and you will likely feel the consequences in your responsibilities or reputation.

☾ Moon qx Quincunx ♂ natal Mars

Right now your emotional needs and your desire to act are out of step with each other. You might feel frustrated because you want to do something but your mood keeps pulling you in a different direction, or you start projects when you are not actually ready for them. This **awkward mismatch between feeling and doing** tends to fade over the coming weeks, but while it lasts you will work better if you check in with yourself before pushing forward.

♂ Mars Rx · II Gemini

Energy scatters across too many directions right now, making sustained effort on a single goal unusually difficult. Arguments or miscommunications can flare up without clear cause, and the frustration of divided attention builds quickly. Choose one or two priorities and protect them from the rest during this period.

☉ Sun ♂ Conjunction ♀ Venus

These days you find it easier to ask for what you want and to say yes to invitations without overthinking. People around you respond well because you come across as **genuinely interested in them** rather than worried about how you look. This is a good window for making a request, starting a conversation you have been putting off, or simply enjoying company without the usual self-doubt getting in the way.

☉ Sun ☐ Square ♃ Jupiter

Right now you're likely **overestimating what you can handle** and taking on more than makes practical sense. *Sun* square *Jupiter* pushes you to act bigger and bolder than your actual circumstances support, which sets you up for overcommitment and disappointment. The friction here teaches you where your real limits are, but only after you've already stretched too far.

☉ Sun * Sextile ♄ Saturn

Right now you find it easier to follow through on what you say you'll do, and people notice you're more reliable than usual. Your practical judgement is sharp, so **you can see what actually needs to happen** instead of getting distracted by what sounds exciting. This is the kind of period where effort pays off directly, so if you've been putting something off, the conditions are there to make real progress without burning yourself out.

LUNAR DAY

Moon in ♌ Leo · Day 24 / 30 · Last Quarter

The social atmosphere becomes more expressive these days, with people more willing to share opinions and put themselves forward. The need to feel appreciated surfaces in small ways — a slower response to criticism, a stronger preference for being noticed.
