## KEY TRANSIT FACTORS

### ☉ Sun △ Trine ♅ Uranus ★

Right now you feel comfortable taking risks that normally make you anxious, and **you speak up about ideas you'd usually keep quiet**. Other people seem more receptive to what you have to say, and conversations naturally veer toward what could happen instead of what has always happened. This is a good time to propose changes at work, try something new socially, or make a practical decision you've been putting off.

### ♇ Pluto ☾ Opposition ♋ natal NNode

Over the coming weeks, you may feel pulled to abandon the relationships and routines that normally sustain you, creating real friction in your personal life. People close to you might notice you're withdrawing or acting **unusually dismissive of their needs**, which can damage trust right when you need support most. This period asks you to examine whether you're running from genuine connection or genuinely outgrowing it—but the clarity won't come easily while this lasts.

### ♆ Neptune ☾ Opposition ♃ natal Jupiter

Your usual confidence in your own judgment is shaky right now, and you are more likely to **ignore warning signs or minimize real problems** because you want to believe things will work out on their own. Over the coming weeks, your optimism can actually cost you money or damage relationships if you skip practical steps like checking facts, reading contracts, or having honest conversations. The challenge here is to slow down your natural tendency to assume the best and actually verify what people are telling you before you commit.

### ♀ Venus ★ Sextile ♂ natal Mars

You're feeling **confident and direct about what you want**, which makes it easier to ask for things or take action without overthinking. People around you respond well to this combination of warmth and decisiveness, so conversations that usually feel awkward become straightforward. Over the coming weeks, you'll likely notice you're more willing to make a move on something you've been considering, whether that's starting a project or deepening a connection with someone.

### ☾ Moon qx Quincunx ♂ natal Mars

Right now your emotional needs and your desire to act are out of step with each other. You might feel frustrated because you want to do something but your mood keeps pulling you in a different direction, or you start projects when you are not actually ready for them. This **awkward mismatch between feeling and doing** tends to fade over the coming weeks, but while it lasts you will work better if you check in with yourself before pushing forward.

### ♃ Jupiter △ Trine ♃ natal Mercury

Right now your thinking is clearer than usual and you find it easier to explain what you mean to other people. You're picking up on details and patterns you normally miss, which helps you solve problems faster and make better decisions in practical situations. This is a good time to write, teach, negotiate, or learn something new because your mind is working **with less friction** and your words land better with others.

### ☉ Sun △ Trine ☿ Mars

Right now you feel **capable and ready to act** on things you've been thinking about. You have the psychological boost to start projects or push through obstacles without burning out or getting frustrated. This period makes practical effort feel natural instead of forced.

### ☉ Sun ☿ Conjunction ♇ Pluto

These days you're more aware of what actually matters to you and less willing to pretend otherwise. You may feel **driven to make real changes** — dropping habits that feel fake or relationships that drain you — even if it makes things uncomfortable for a while. This isn't about drama; it's about wanting your life to match what you actually believe.
