KEY TRANSIT FACTORS

♇ Pluto ☐ Square ☾ natal Moon ★

You feel unusually disconnected from people you're close to, as if you cannot quite let them comfort you the way you normally would. Your **emotional walls go up automatically**, and you may withdraw or push away support even when you need it. Over the coming weeks, this psychological distance can strain your relationships unless you notice what is happening and make an effort to stay connected despite the discomfort.

♆ Neptune qx Quincunx ☾ natal Moon ★

Your emotional needs feel out of step with what's actually happening around you these days, and this mismatch can leave you **restless and slightly dissatisfied** no matter what you're doing. You might find yourself wanting comfort or reassurance that doesn't quite arrive, or feeling emotionally tired without a clear reason why. Over the coming weeks, the practical solution is to check in with yourself about what you actually need right now, rather than waiting for circumstances to shift on their own.

☉ Sun ∟ Semi sextile ♀ Venus ★

Right now you find it easier to notice what you like about people around you, and that makes your social interactions feel smoother. You're more likely to **compliment someone without overthinking it** or suggest doing something enjoyable together. This isn't a dramatic shift, but these days small acts of kindness and warmth come more naturally to you.

♃ Jupiter ∟ Semi sextile ♄ natal Saturn

Over the coming weeks, you find it easier to follow through on practical plans without getting overwhelmed by all the details. *Jupiter* is giving you just enough optimism to balance *Saturn's* caution, so you can **move forward steadily while staying realistic** about what you can actually do. This is a good time to tackle a project that requires both confidence and discipline, because you naturally trust your own judgment right now.

♅ Uranus qx Quincunx ☿ natal Mercury

While this lasts, your thinking becomes harder to organize—ideas arrive faster than you can sort them, and your usual way of explaining things stops working the way it normally does. You might find yourself changing your mind mid-conversation or struggling to finish a sentence because a completely different thought cuts in. This isn't permanent confusion, just a temporary mismatch between how your brain wants to work right now and how it usually operates.

♂ Mars qx Quincunx ☾ natal Moon

Over the coming weeks, you may feel **restless in ways that don't match what you actually want to do**. Your emotional needs and your impulse to act keep pulling in different directions, leaving you frustrated or unsure which one to follow. This awkward timing usually passes, but while it lasts you might notice yourself starting things and stopping them, or feeling irritated that people aren't moving at your pace.

☉ Sun ☿ Quincunx ♀ Moon

At the moment, your **emotional needs and practical goals are pulling in different directions**, and this creates a low-level discomfort that's hard to name. You might feel restless or slightly out of sync—your body wants one thing while your mind is focused on something else entirely. This isn't a crisis, but it does mean you'll need to make small adjustments throughout the day to feel more settled.

☉ Sun ♂ Conjunction ♿ Mercury

These days your mind feels clearer and you're more likely to speak up about what you actually think. **You say things more directly** and people tend to listen because you sound confident. This is a practical time to have conversations you've been putting off or to explain yourself without second-guessing every word.

LUNAR DAY

Moon in ♋ Pisces · Day 13 / 30 · Waxing Gibbous

The boundary between personal and environmental moods blurs during this transit, making it easy to absorb the emotional state of whoever is nearby. Imagination and sensitivity both run higher, while clarity of thought and decision-making run lower for the next 48 hours.
