## KEY TRANSIT FACTORS

### ☉ Sun ☐ Square ♃ natal Jupiter ★

These days you are **overestimating what you can accomplish** and taking on too much at once. You feel confident and expansive, but your actual capacity has not changed, so you end up stretched thin and frustrated when reality does not match your ambitions. The gap between your optimism and your real limitations creates practical problems at work or in your commitments that take weeks to sort out.

### ☉ Sun qx Quincunx ♀ natal Venus

Over the coming weeks you notice a mismatch between what you want socially and what actually feels right to you. You might say yes to plans or people, then feel disconnected once you are there, creating **awkwardness in your interactions**. This disconnect fades as the transit passes, so small adjustments now will help you feel more authentic in your relationships.

### ♄ Saturn ♂ Opposition ♃ natal Jupiter

Right now you're running into real limits on your optimism and spending habits. You feel **more cautious and doubtful** about plans that seemed exciting weeks ago, and money or time constraints are forcing you to scale back. This friction between your natural confidence and harsh reality is uncomfortable, but it's pushing you to be honest about what you can actually do instead of what you wish you could do.

### ♀ Venus qx Quincunx ☿ natal Mercury

Right now you may notice that what you want to say doesn't quite match what you actually feel, leaving you **awkwardly uncertain in conversations**. Your usual way of explaining yourself feels clumsy when you are trying to express something that matters emotionally. Over the coming weeks, this gap between thought and feeling tends to smooth out on its own without you having to fix it.

### ♇ Pluto qx Quincunx ☾ natal Moon

These days you feel like your emotions don't quite fit the situation, so you keep adjusting how you respond to people without really understanding why. Your instinct is to **control how much you show of yourself**, which can leave you feeling disconnected even in conversations that matter. Over the coming weeks, noticing this pattern of holding back will help you figure out what you actually need rather than just managing what others might think.

### ☉ Sun ♂ Conjunction ♂ Mars

Right now you feel **more direct and willing to take action** on things you normally hesitate about. You're likely to speak up in conversations, push forward with a project, or make a decision you've been putting off. This practical confidence usually fades once the transit passes, so use it to handle what actually needs doing.

### ☉ Sun ∟ Semi sextile ♃ Jupiter

These days you feel a bit more **optimistic about your abilities** and willing to take on new projects. Small wins come easier right now because you're not overthinking things or waiting for perfect conditions. This is a good time to start something you've been putting off, since your confidence has a gentle boost and you're likely to see early progress.

### ☉ Sun ☐ Square ♄ Saturn

Right now you're running into real obstacles when you try to move forward with what you want. **You feel blocked by rules, other people's expectations, or your own self-doubt**, and pushing harder usually just makes things worse. The practical thing to do is slow down, check what's actually realistic, and accept that some goals need more time or a different approach.

★ = natal resonance — this transit echoes your birth chart, amplifying its influence

## LUNAR DAY

Moon in ♌ Leo · Day 20 / 30 · Waning Gibbous

**The social atmosphere becomes more expressive** these days, with people more willing to share opinions and put themselves forward. The need to feel appreciated surfaces in small ways — a slower response to criticism, a stronger preference for being noticed.
