KEY TRANSIT FACTORS

♁ Chiron * Sextile ♁ natal Chiron

Over the coming weeks, you find it easier to talk about your own past difficulties without getting stuck in them. You notice you can listen to others' problems and actually help instead of just feeling overwhelmed by what they are going through. This is a good time to **share what you have learned from your own hard experiences** in ways that feel natural and useful.

♂ Mars Δ Trine ☿ natal Mercury

Your mind feels sharper these days, and you can express what you think without second-guessing yourself. You find it easier to **organize your thoughts into action**, whether that's talking through a problem or getting a project moving forward. This practical clarity lasts a few weeks, so it's a good time to handle conversations you've been putting off or tackle work that needs both thinking and doing.

☿ Mercury □ Square ♅ natal Uranus

Right now your thinking is scattered and you jump between ideas without finishing them, which makes it hard to explain what you actually want to others. You feel **restless and impatient** with normal conversation, often blurting out opinions you later regret or missing what someone else is trying to tell you. Over the coming weeks, this mental friction could damage plans or relationships if you don't write things down before you speak or act on them.

♃ Jupiter ∠ Semi sextile ♂ natal Mars

Over the coming weeks, you'll notice yourself **taking action on plans you've been sitting on** without the usual self-doubt. You feel more confident when you push forward on practical tasks, and small wins come easier than usual. This is a good time to start that project or have conversations you've been putting off, because your natural momentum is working in your favour right now.

☿ Mercury qx Quincunx ☾ natal Moon

Right now your thoughts and your feelings are working at cross purposes, so you say one thing while sensing something different underneath. You might find yourself explaining yourself repeatedly to people because your words do not quite match what you actually feel, creating **awkward misunderstandings in conversations**. Over the coming weeks, paying attention to this gap between what you think and what you feel will help you communicate more clearly.

☉ Sun * Sextile ♂ Mars

Right now you find it easier to **take action on things you actually want** instead of sitting with them in your head. Your motivation and your confidence are aligned, so when you decide to do something, your body follows without the usual resistance. This is a practical window for starting projects, having difficult conversations, or pushing through work that needs momentum.

☾ Sun ☿ Conjunction ♅ Uranus

At the moment, you feel **restless and impatient with routines that normally work fine**. You might suddenly want to change something about how you look, where you work, or how you spend your time, even if there's no real problem. This push to break free or do something different is normal right now, so notice what you actually want to change versus what's just nervous energy looking for an outlet.

☾ Sun ♁ Opposition ♆ Chiron

At the moment, you're likely to notice what you're **avoiding about yourself** — the parts of your character or your past that make you uncomfortable. This awareness doesn't feel good because it arrives as criticism rather than compassion, leaving you defensive or ashamed. Over the coming weeks, you may find yourself pushing back against feedback from others, even when it contains something useful, because right now your ego feels too raw to hear it.

LUNAR DAY

Moon in ♋ Pisces · Day 9 / 30 · First Quarter

The boundary between personal and environmental moods blurs during this transit, making it easy to absorb the emotional state of whoever is nearby. Imagination and sensitivity both run higher, while clarity of thought and decision-making run lower for the next 48 hours.
