## KEY DATE

### ♂ Mars enters ♐ Sagittarius

*Mars* entering *Sagittarius* brings a shift toward **bigger goals and faster action** — people tend to stop sweating small details and push harder for what matters most. In relationships and work, you'll notice more **directness and impatience** with anything that feels like a waste of time, which can speed things up or create friction depending on how bluntly people speak. The practical upside is that **ambitious projects move forward** and people take risks they'd normally avoid, though they may also start more things than they finish during this transit.

## KEY TRANSIT FACTORS

### ♃ Jupiter ☐ Square ☉ natal Sun

Right now you are **overestimating what you can handle**, and this confidence is pulling you into commitments that drain your resources faster than you expected. *Jupiter* is amplifying your sense of possibility while *Sun* pushes you to prove yourself, making it hard to say no or admit limits. Over the coming weeks you will likely hit a wall—exhaustion, overspending, or failed promises—that forces you to recalibrate what actually matters to you.

### ☿ Mercury \* Sextile ♂ natal Mars

These days you find it easier to say what you actually want without overthinking it, and people respond well to your directness. Your mind is **quick and purposeful**, so tasks that normally feel scattered come together faster when you tackle them head-on. This is a good window to pitch ideas, negotiate, or take action on something you've been planning.

### ♂ Mars \* Sextile ♅ natal Uranus

Right now you find it easier to act on your unconventional ideas without overthinking them, and people respond well to your **refreshing directness**. You're willing to try new approaches at work or in your routines, and small experiments often lead somewhere useful rather than nowhere. This window won't last long, so these are good weeks to pitch that different idea or shake up something that's been stuck in the same pattern.

### ♂ Mars ☍ Opposition ☾ natal Moon

Right now you're more **irritable and quick to react** than usual, especially when someone upsets your plans or questions your feelings. Your emotional responses feel stronger and harder to control, which can create unnecessary conflict with people close to you. These days you need to notice this pattern and step back before you speak, because your impulse to push back or argue is working against you.

### ♃ Jupiter ☍ Quincunx ♃ natal Jupiter

Right now you are noticing a mismatch between what you want to expand in your life and what actually fits your current situation. You might feel pulled toward a new opportunity or ambition, but something about it does not quite align with your practical reality. Over the coming weeks, the adjustment you need to make will become clearer if you stop pushing and instead listen to what feels genuinely **workable** rather than just exciting.

☉ Sun ☐ Square ☾ Moon

Right now your gut feelings and your sense of purpose are pulling in opposite directions. You might feel irritated with people close to you without knowing exactly why, or snap at someone when you meant to stay calm. This friction between what you want to do and what feels emotionally safe can push you to make real changes, but only if you stop and actually listen to both sides instead of just reacting.

☉ Sun ♂ Conjunction ♿ Mercury

These days your mind feels clearer and you're more likely to speak up about what you actually think. **You say things more directly** and people tend to listen because you sound confident. This is a practical time to have conversations you've been putting off or to explain yourself without second-guessing every word.

☉ Sun ♂ Conjunction ♀ Venus

These days you find it easier to ask for what you want and to say yes to invitations without overthinking. People around you respond well because you come across as **genuinely interested in them** rather than worried about how you look. This is a good window for making a request, starting a conversation you have been putting off, or simply enjoying company without the usual self-doubt getting in the way.

LUNAR DAY

Moon in ♏ Scorpio · Day 23 / 30 · Last Quarter

**Psychological intensity rises** for the next 48 hours, and surface-level talk becomes noticeably less satisfying. People read into what others leave unsaid more than usual, and private matters feel more pressing.
