KEY TRANSIT FACTORS

♂ Mars ☌ Conjunction ♁ natal Lilith

Right now you're more **willing to push back against rules that feel unfair**, especially in situations where you've been quiet before. You might argue with authority figures, challenge expectations at work, or speak up about what you actually want instead of going along with what others prefer. This directness can clear the air or create friction depending on how you handle it.

♅ Uranus ☌ Quincunx ☉ natal Sun

These days you feel out of step with your usual routine, even though nothing obvious has changed. Your instinct is to **shake things up or rebel against your normal habits**, but the timing feels awkward and you are not sure what you actually want to do differently. Over the coming weeks, this restless feeling will likely push you to make small adjustments to how you work or present yourself, rather than the dramatic overhaul your mind keeps suggesting.

♅ Uranus ☐ Square ♃ natal Jupiter

Right now you are restless with your current plans and want to scrap them for something completely different, even when things are working reasonably well. You feel **impatient with limits** and may make sudden decisions about money, education, or travel that you have not fully thought through. Over the coming weeks, impulsive moves could create real practical problems that take time to fix.

☿ Mercury * Sextile ♄ natal Saturn

Your thinking becomes **clearer and more organized** right now, making it easier to plan projects and solve practical problems. You naturally focus on what actually matters instead of getting distracted, and people notice you're easier to talk to because you explain things well. This is a good time to handle details, write things down, or have conversations about serious topics since your mind and your ability to follow through line up perfectly.

♁ Chiron ☐ Square ♇ natal Pluto

You're running into situations right now where your usual ways of handling power and control stop working, and that's frustrating. You may notice yourself **pushing harder against resistance instead of stepping back**, which tends to make things worse before anything improves. While this lasts, the practical challenge is learning to let go of outcomes you can't actually control, even though every part of you wants to fight for them.

♄ Saturn Rx · ♐ Sagittarius

Beliefs that have been functioning as unexamined rules are being tested for their actual utility right now. Long-term plans based on optimistic assumptions may need grounding in more realistic evaluation. Honest review of what you have committed to — in education, philosophy, or travel — is more productive than continuing forward without looking back.

☉ Sun ☌ Semi sextile ♂ Mars

These days you feel **motivated to take small steps forward** without forcing things or burning out. Your practical energy matches what you actually want to do right now, so starting a project or having a difficult conversation feels less exhausting than usual. This is a good window to build momentum on something you care about while the effort still feels natural.

☉ Sun ☌ Quincunx ♃ Neptune

These days you might notice a gap between what you're trying to accomplish and what actually feels right to you. Your practical plans can feel oddly disconnected from your gut feelings, leaving you **uncertain about which direction to trust**. This mismatch between doing and feeling tends to make decision-making slower and more confusing than usual.

☉ Sun ☌ Quincunx ♇ Pluto

Right now you might feel **out of step with your own needs**, as if what you want and what's actually happening don't quite match up. You notice yourself making small adjustments to stay in control of a situation, only to realize those tweaks aren't really working. This mismatch between your intentions and real results can leave you feeling frustrated until you accept that some things need to shift more completely than you planned.

LUNAR DAY

Moon in ♌ Leo · Day 5 / 30 · Waxing Crescent

The social atmosphere becomes more expressive these days, with people more willing to share opinions and put themselves forward. The need to feel appreciated surfaces in small ways — a slower response to criticism, a stronger preference for being noticed.
