## KEY DATE

### ♂ Mars stations Retrograde

*Mars* stationing retrograde often brings **delays and restarts** in projects, work deadlines, and physical activities—things that felt urgent suddenly move slower or need reworking. People commonly notice they feel less pushy, more willing to **reconsider decisions** they made before, and sometimes **old conflicts or rivalries** come back up that need settling. In practical terms, this is a good time to **revise plans** rather than launch new ones, fix broken equipment, and handle any pending arguments you've been avoiding.

## KEY TRANSIT FACTORS

### ☿ Mercury ∠ Semi sextile ♆ natal Neptune

Right now your mind is picking up on things you normally miss, and you're finding it easier to **connect the dots between different ideas**. Your conversations have a natural flow to them these days because *Mercury* and *Neptune* are working together to make your words feel intuitive and gentle. Over the coming weeks this can help you explain complicated feelings or understand what someone else really means beneath what they're saying.

### ♆ Neptune qx Quincunx ☿ natal Mercury

Over the coming weeks, you may find your thinking becomes **less direct and harder to organize** than usual. You might struggle to explain your ideas clearly to others, or notice that conversations wander off track more easily. This isn't permanent—it's just *Neptune* softening your usual mental sharpness, so patience with yourself during this period will help you move through it.

### ☿ Mercury qx Quincunx ♊ natal NNode

Your mind is working at odds with what feels natural to you socially right now, making conversations feel slightly off or effortful. You might notice **a mismatch between what you want to say and how others are actually receiving it**, leaving you feeling like you have to adjust or repeat yourself more than usual. Over the coming weeks, pay attention to this friction instead of pushing through it — it's temporary and often signals where you need to slow down and listen more carefully.

### ♂ Mars ☍ Opposition ♂ natal Mars

You're running into more resistance than usual right now, whether from other people or from your own body pushing back against what you want to do. **Your natural drive feels blocked or opposed at every turn**, making even simple tasks feel like you're fighting an invisible force. Over the coming weeks, this clash between what you want and what's actually possible will force you to get honest about whether your goals are realistic or whether you're trying to bulldoze your way through something that needs a different approach.

› Moon ☾ Opposition › natal Moon

Right now you are likely to feel **emotionally restless and at odds with yourself**, as if your usual ways of managing stress are not working. You may snap at people you care about or withdraw when you normally would reach out, leaving you confused about what you actually want. Over the coming weeks, this mismatch between your instinctive needs and your current emotional state will push you to notice patterns you have been avoiding.

♂ Mars Rx · ♀ Gemini

Energy scatters across too many directions right now, making sustained effort on a single goal unusually difficult. Arguments or miscommunications can flare up without clear cause, and the frustration of divided attention builds quickly. Choose one or two priorities and protect them from the rest during this period.

☉ Sun ☽ Semi sextile › Moon

These days you find it easier to **act on what you actually feel** instead of second-guessing yourself. Your emotional reactions and your practical choices line up more naturally, so you waste less energy fighting your own instincts. This makes conversations smoother and decisions quicker because you're not pulling yourself in opposite directions.

☉ Sun ☿ Conjunction ☿ Mercury

These days your mind feels clearer and you're more likely to speak up about what you actually think. **You say things more directly** and people tend to listen because you sound confident. This is a practical time to have conversations you've been putting off or to explain yourself without second-guessing every word.

☉ Sun ☿ Conjunction ♀ Venus

These days you find it easier to ask for what you want and to say yes to invitations without overthinking. People around you respond well because you come across as **genuinely interested in them** rather than worried about how you look. This is a good window for making a request, starting a conversation you have been putting off, or simply enjoying company without the usual self-doubt getting in the way.

LUNAR DAY

Moon in ♏ Scorpio · Day 3 / 30 · New Moon

**Psychological intensity rises** for the next 48 hours, and surface-level talk becomes noticeably less satisfying. People read into what others leave unsaid more than usual, and private matters feel more pressing.
