KEY TRANSIT FACTORS

☉ Sun Δ Trine ♀ natal Venus

Right now you find it easier to like yourself and feel comfortable in your own skin, which naturally makes other people want to be around you more. You're less critical of your flaws and **more accepting of who you are**, so conversations flow better and you come across as genuinely relaxed instead of trying too hard. This period is ideal for repair work in relationships, starting something new socially, or simply enjoying the company of people you care about without the usual second-guessing.

☾ Moon \square Square ☉ natal Sun

Right now you're feeling **irritable with the people closest to you**, even when they haven't done anything wrong. Your mood swings are making it hard to stick to your normal routines, and small frustrations at work or home feel much bigger than they actually are. These next few days or weeks will test your patience, but once this passes you'll see more clearly what actually bothers you and what doesn't.

♅ Uranus \circ Opposition ♇ natal Pluto

You're running into situations where you feel your control slipping away, and it makes you uncomfortable. **You push harder to regain power** in exactly the areas where you have the least influence, which only creates more conflict with others. Over the coming weeks, you'll need to notice when you're fighting to keep things the same instead of accepting what you cannot change.

♇ Pluto Δ Trine ♄ natal Saturn

You find it easier right now to stick with difficult tasks without losing confidence in yourself. **You work with steady focus** on what actually matters, turning big goals into concrete steps. This period supports you in building something real that lasts, whether at work or in how you organize your life.

☾ Moon \angle Semi sextile ♃ natal Jupiter

These days you find it easier to **see the good in situations** and bounce back quickly from small disappointments. Your mood lifts naturally when you focus on what you've learned from recent experiences, and people around you notice you're more optimistic than usual. This is a good window to say yes to invitations or try something new, since your confidence in things working out is genuinely higher right now.

☉ Sun Δ Trine ♂ Mars

Right now you feel **capable and ready to act** on things you've been thinking about. You have the psychological boost to start projects or push through obstacles without burning out or getting frustrated. This period makes practical effort feel natural instead of forced.

› Moon ☾ Opposition ♃ Jupiter

These days you feel pulled between what you want right now and what you think you should want, and this makes it hard to know what actually matters to you. Your **emotional reactions are bigger than the situation calls for**, so you say yes to things you don't have time for or get frustrated faster than usual. Over the coming weeks, this mismatch between your feelings and your judgment creates real friction in conversations and decisions, because you're either too generous with your time or too blunt about your limits.

› Moon ♄ Quincunx ♅ Uranus

At the moment, your emotional needs and your urge to break free from routine are **pulling in opposite directions**, making it hard to know what you actually want. You might feel restless in situations that used to feel safe, or suddenly need independence just when you were settling into something comfortable. These conflicting impulses won't resolve quickly, so expect a few weeks of awkward adjustments as you figure out what needs to change.

LUNAR DAY

Moon in ♌ Leo · Day 21 / 30 · Waning Gibbous

The social atmosphere becomes more expressive these days, with people more willing to share opinions and put themselves forward. The need to feel appreciated surfaces in small ways — a slower response to criticism, a stronger preference for being noticed.
