KEY TRANSIT FACTORS

♄ Saturn △ Trine ♀ natal Venus

These days you're able to be **honest about what you actually want in relationships** without needing to please everyone or soften the truth. You find it easier to set practical boundaries with people and stick to them, because you're not second-guessing your own needs. This period gives you a real advantage in building connections that feel genuine instead of performative, so you can invest your emotional energy where it actually matters.

☉ Sun ∟ Semi sextile ♃ natal Jupiter

You feel **quietly more confident** about what you want to achieve right now, and small opportunities seem to show up without much effort on your part. Your mood is steadier than usual, and you find yourself saying yes to social or professional chances that normally would make you hesitant. Over the coming weeks, this sense of gentle support can help you move forward on something you've been thinking about.

♃ Jupiter qx Quincunx ☾ natal Moon

Over the coming weeks you may feel pulled between wanting more comfort and feeling restless with your current situation. Your emotional needs don't quite match what's actually available to you right now, so you keep adjusting your expectations without getting settled. This **mild discomfort with routine** often pushes you to make small changes in how you manage your home or relationships, even if you're not entirely sure what you want.

♄ Saturn ☾ Opposition ♁ natal Chiron

Right now you are running into hard limits on what you can do to help or fix things for people around you, and it feels like failure. You keep trying to solve problems that aren't yours to solve, and **reality is pushing back harder than usual**. Over the coming weeks, you'll need to accept that some pain in your life or others' lives cannot be managed away, no matter how skilled you are at it.

☿ Mercury □ Square ♂ natal Uranus

Right now your thinking is scattered and you jump between ideas without finishing them, which makes it hard to explain what you actually want to others. You feel **restless and impatient** with normal conversation, often blurting out opinions you later regret or missing what someone else is trying to tell you. Over the coming weeks, this mental friction could damage plans or relationships if you don't write things down before you speak or act on them.

♄ Saturn Rx · ♍ Virgo

The systems and routines you rely on for health, work, and daily functioning are being tested for their genuine usefulness right now. Habits maintained out of routine rather than benefit deserve honest evaluation. Small corrections made now to health or work practices tend to produce more durable improvement than sweeping changes.

☉ Sun ☾ Semi sextile ♂ Mars

These days you feel **motivated to take small steps forward** without forcing things or burning out. Your practical energy matches what you actually want to do right now, so starting a project or having a difficult conversation feels less exhausting than usual. This is a good window to build momentum on something you care about while the effort still feels natural.

☉ Sun △ Trine ♄ Saturn

These days you find it easier to follow through on what you say you will do, and people notice your **reliability**. Work feels less overwhelming because you can break tasks into realistic steps instead of getting stuck in your own way. The practical support is there if you use it — the *Sun* trine *Saturn* makes real effort pay off in real results.

☾ Moon ☿ Opposition ♃ Jupiter

These days you feel pulled between what you want right now and what you think you should want, and this makes it hard to know what actually matters to you. Your **emotional reactions are bigger than the situation calls for**, so you say yes to things you don't have time for or get frustrated faster than usual. Over the coming weeks, this mismatch between your feelings and your judgment creates real friction in conversations and decisions, because you're either too generous with your time or too blunt about your limits.

LUNAR DAY

Moon in ♌ Leo · Day 9 / 30 · First Quarter

The social atmosphere becomes more expressive these days, with people more willing to share opinions and put themselves forward. The need to feel appreciated surfaces in small ways — a slower response to criticism, a stronger preference for being noticed.
