KEY TRANSIT FACTORS

♁ Chiron ☌ Opposition ☉ natal Sun

Right now you're running into situations where your usual confidence doesn't work, and you feel **awkward or exposed in ways that sting**. You might notice criticism from others landing harder than usual, or you catching yourself being overly self-critical about decisions you'd normally stand behind. Over the coming weeks, this friction is forcing you to look honestly at where you've been ignoring your own doubts or pushing yourself too hard.

☾ Moon * Sextile ♊ natal NNode

You find it easier right now to **act on what feels right to you** without second-guessing yourself. Your gut instinct about people and situations is sharper than usual, and you're more likely to trust it. Over the coming weeks, this natural confidence helps you move toward the things you actually want instead of getting stuck in old patterns.

☾ Moon ☐ Square ♄ natal Uranus

Right now you feel restless and irritable in ways that don't match your usual mood, making you **snap at people over small things** and struggle to sit still. Your need for sudden change clashes with what you actually need emotionally, so you might suddenly want to quit something or push away someone close to you without being clear why. These feelings will pass in a few days, but while they last you'll need to notice the impulse to act on them rather than act immediately.

♂ Mars ☌ Quincunx ♀ natal Venus

These days you feel **restless in your relationships and attractions**, as if what usually satisfies you no longer fits quite right. Your desires and your actions keep pulling in different directions, so you end up pursuing what you want in awkward or roundabout ways. Over the coming weeks, you may notice you're making social or romantic moves that feel off-timing, or you're frustrated because your energy doesn't match what your heart actually needs.

☉ Sun ☌ Opposition ♃ natal Mercury

Right now you're finding it hard to say what you mean, and people often misunderstand your point even when you explain carefully. Your thinking feels scattered and you keep losing your train of thought in conversations or at work. This friction between what you want to communicate and what actually comes out will push you to slow down and choose your words more deliberately over the coming weeks.

♃ Mercury Rx · ♈ Aries

Communication gets impulsive and then regretted during this period. You may speak before thinking, send messages in haste, or make decisions based on incomplete information. Revisiting plans rather than rushing forward is more productive than it feels right now.

› Moon ☾ Opposition ♂ Uranus

At the moment, you feel **restless and irritable** without knowing exactly why, and small changes to your routine feel like major disruptions. The *Moon* opposition *Uranus* aspect right now makes your emotional needs clash with a sudden urge to break free or do something different. You might snap at people who want closeness, or you might suddenly want to abandon plans that felt important yesterday, leaving you feeling emotionally scattered and unpredictable.

› Moon ☾ Conjunction ♄ Chiron

These days you are more aware of your own hurt spots and what makes you feel raw emotionally. You might find yourself being **gentler with yourself** about old disappointments instead of pushing through them. This is a practical window to notice what actually bothers you rather than ignore it.

♿ Mercury * Sextile ♄ Saturn

Right now your thinking is **practical and direct**, making it easier to solve problems without getting distracted by side issues. You can say what you mean in a way that other people actually listen to, and you're more likely to follow through on commitments instead of leaving things half done. This is a good time to handle detailed work, make plans that actually work, or have conversations where you need to be clear and honest.

LUNAR DAY

Moon in ♈ Aries · Day 30 / 30 · Waning Crescent

Impatience with delays rises noticeably right now, and people act on whatever they want without much advance thinking. Short tempers and blunt reactions are more common for the next 48 hours.
