KEY TRANSIT FACTORS

♅ Uranus ☐ Square ♂ natal Mars

These days you feel **restless and impatient with normal routines**, and you're more likely to act on impulses without thinking through the consequences. Your usual way of handling frustration stops working, so small annoyances trigger bigger reactions than they should. Over the coming weeks, this mismatch between what you want to do right now and what you actually should do will create real practical problems if you don't stay aware of it.

♀ Venus * Sextile ☾ natal Moon

You find it easier to connect with people right now because you're naturally more **warm and approachable**. Your emotional state feels steady enough that you can listen to others without getting defensive or withdrawn. These days small gestures—a kind word, spending time with someone who matters—feel genuinely rewarding to you in a way they might not normally.

♃ Jupiter ☽ Opposition ♊ natal NNode

Over the coming weeks, you're likely to **overcommit yourself** and take on more than you can realistically handle. Your usual sense of what fits your life gets temporarily skewed, and you end up saying yes to opportunities that pull you away from what actually matters to you. This period asks you to notice where you're spreading yourself too thin and to start saying no more often.

♀ Venus ☽ Opposition ♆ natal Neptune

While this lasts, you're drawn to people and situations that seem perfect but don't match reality, leaving you disappointed and confused about what went wrong. Your judgment about who to trust or how much to invest emotionally becomes cloudy, so you make choices you later regret. Over the coming weeks, the practical solution is to slow down before committing to anything — wait until this period ends to make real decisions about relationships or money.

☉ Sun ☿ Quincunx ♊ natal NNode

Right now you feel **pulled in two different directions** about what you want to do with your time and energy. Part of you wants to keep doing what's familiar, but another part senses you should be moving toward something new. This awkward feeling usually passes in a couple of weeks, but while it lasts you may second-guess decisions or feel restless about the direction you're heading.

☉ Sun * Sextile ♂ Mars

Right now you find it easier to **take action on things you actually want** instead of sitting with them in your head. Your motivation and your confidence are aligned, so when you decide to do something, your body follows without the usual resistance. This is a practical window for starting projects, having difficult conversations, or pushing through work that needs momentum.

☉ Sun ☌ Semi sextile ♃ Jupiter

These days you feel a bit more **optimistic about your abilities** and willing to take on new projects. Small wins come easier right now because you're not overthinking things or waiting for perfect conditions. This is a good time to start something you've been putting off, since your confidence has a gentle boost and you're likely to see early progress.

☉ Sun ☌ Quincunx ♆ Neptune

These days you might notice a gap between what you're trying to accomplish and what actually feels right to you. Your practical plans can feel oddly disconnected from your gut feelings, leaving you **uncertain about which direction to trust**. This mismatch between doing and feeling tends to make decision-making slower and more confusing than usual.

LUNAR DAY

Moon in ♐ Sagittarius · Day 19 / 30 · Waning Gibbous

Restlessness with routine increases during this transit, and the desire to break out of familiar patterns grows. Opinions get expressed more freely and with less filtering for the next day or two.
