## KEY TRANSIT FACTORS

### ♀ Venus ☌ Conjunction ☉ natal Sun ★

These days you feel more **likeable and relaxed in social situations**, and other people tend to respond warmly to you without much effort on your part. You probably care more about how you look and feel, and small gestures of affection or appreciation from others land differently than usual. This window lasts a few weeks, so it's a practical time to repair relationships that have felt cold or to ask for something you want.

### ☿ Mercury △ Trine ☾ natal Moon

Right now you find it much easier to say what you actually feel without overthinking it. Your conversations with people close to you flow naturally because you can **express emotions clearly and listen without getting defensive**. This is a good window to have the conversations you've been putting off, since what you say lands well and creates real understanding.

### ♆ Neptune qx Quincunx ♄ natal Saturn

Over the coming weeks, you may notice your usual routines feel slightly off or harder to follow through on, even when you know what you need to do. Your **ability to stick to practical plans gets cloudy**, and you find yourself second-guessing decisions you'd normally make without much thought. This isn't a crisis—it's just *Neptune* making your sense of structure feel less reliable, so you may need to build in extra time and double-check details more carefully than usual.

### ♁ Chiron \* Sextile ☿ natal Mercury

Right now you're finding it easier to talk about things that normally feel awkward or painful, and people respond well to your honesty. Your **ability to explain difficult feelings in clear, straightforward language** is sharper than usual, which helps you connect with others without getting stuck in defensiveness. Over the coming weeks, conversations that might have been tense instead become a chance to actually understand each other better.

### ♂ Mars ☌ Conjunction ☉ natal Sun

Right now you have more **physical drive and directness** than usual, and you're quicker to act on what you want. You may push harder on projects or speak up more bluntly in conversations because your patience for delays has dropped. Watch whether this gets you closer to your goals or whether it creates friction with people around you.

### ☿ Mercury Rx · ♏ Sagittarius

Plans for travel, education, or big-picture goals hit unexpected snags right now. Opinions expressed with too much confidence may need to be walked back, and long-distance communications often get garbled. This is a better period for reviewing beliefs than for broadcasting them.

### ☉ Sun \* Sextile ☾ Moon

These days you find it easier to know what you actually want and then act on it without second-guessing yourself. Your **practical needs and your emotional needs are pointing in the same direction**, so decisions feel less confusing. This alignment between the *Sun* and *Moon* means you can move forward with both confidence and peace of mind.

☉ Sun ☾ Semi sextile ♀ Venus

Right now you find it easier to notice what you like about people around you, and that makes your social interactions feel smoother. You're more likely to **compliment someone without overthinking it** or suggest doing something enjoyable together. This isn't a dramatic shift, but these days small acts of kindness and warmth come more naturally to you.

☉ Sun ☾ Semi sextile ♂ Mars

These days you feel **motivated to take small steps forward** without forcing things or burning out. Your practical energy matches what you actually want to do right now, so starting a project or having a difficult conversation feels less exhausting than usual. This is a good window to build momentum on something you care about while the effort still feels natural.

★ = natal resonance — this transit echoes your birth chart, amplifying its influence

LUNAR DAY

Moon in ♏ Scorpio · Day 25 / 30 · Last Quarter

**Psychological intensity rises** for the next 48 hours, and surface-level talk becomes noticeably less satisfying. People read into what others leave unsaid more than usual, and private matters feel more pressing.
