KEY TRANSIT FACTORS

♀ Venus ☌ Conjunction ☉ natal Sun ★

These days you feel more **likeable and relaxed in social situations**, and other people tend to respond warmly to you without much effort on your part. You probably care more about how you look and feel, and small gestures of affection or appreciation from others land differently than usual. This window lasts a few weeks, so it's a practical time to repair relationships that have felt cold or to ask for something you want.

♅ Uranus ☐ Square ☾ natal Moon ★

Your **emotional reactions feel unpredictable and harder to control** right now, catching you off guard in situations where you normally stay calm. People close to you may seem confused or frustrated because your mood shifts without warning, and you struggle to explain why you feel unsettled. Over the coming weeks, this restlessness pushes you to question habits and routines that no longer fit, but the process feels uncomfortable rather than liberating.

♀ Venus ☌ Conjunction ♀ natal Venus

Right now you're more **willing to say yes to social invitations and physical affection**, and people tend to respond warmly to you. You feel genuinely more comfortable in your own skin, so you attract attention without trying hard. Over the coming weeks, this is a natural time to deepen relationships or start something new, because you're showing up as your most relaxed self.

♁ Chiron ☌ Opposition ♇ natal Pluto

Right now you are **confronting ways you control situations through fear or secrecy**, and it feels uncomfortable because someone or something is forcing you to see what you have been hiding from yourself. You may notice that your usual tactics for managing relationships or power no longer work, leaving you feeling exposed and defensive. These days it is worth sitting with this discomfort instead of retreating into old patterns, because what feels threatening right now is actually showing you where real change needs to happen.

♇ Pluto ☐ Square ♁ natal Chiron

Right now you're bumping up against old wounds that usually stay quiet, and it feels uncomfortable because you can't just ignore them the way you normally do. You might find yourself **overreacting to small slights or feeling defensive** about situations that wouldn't usually bother you. Over the coming weeks, this friction is forcing you to look at how you protect yourself—not to fix everything at once, but to notice where your defenses are actually holding you back from connecting with other people.

☉ Sun ☌ Quincunx ☾ Moon

At the moment, your **emotional needs and practical goals are pulling in different directions**, and this creates a low-level discomfort that's hard to name. You might feel restless or slightly out of sync—your body wants one thing while your mind is focused on something else entirely. This isn't a crisis, but it does mean you'll need to make small adjustments throughout the day to feel more settled.

☉ Sun ☾ Semi sextile ♀ Venus

Right now you find it easier to notice what you like about people around you, and that makes your social interactions feel smoother. You're more likely to **compliment someone without overthinking it** or suggest doing something enjoyable together. This isn't a dramatic shift, but these days small acts of kindness and warmth come more naturally to you.

☉ Sun ☾ Semi sextile ♂ Mars

These days you feel **motivated to take small steps forward** without forcing things or burning out. Your practical energy matches what you actually want to do right now, so starting a project or having a difficult conversation feels less exhausting than usual. This is a good window to build momentum on something you care about while the effort still feels natural.

★ = natal resonance — this transit echoes your birth chart, amplifying its influence
