

FULL MOON IN LIBRA · THURSDAY, 2 APRIL 2026

Aries

This ritual is about love, relationships, and close partnerships.

Something in you has been holding back, and tonight the Full Moon in Libra asks you — gently, firmly — to let the wanting show.

PREPARATION

Face west. Clear the surface before you of anything cluttered or careless — this space is about to hold something delicate, and it should feel like it. Silence your phone and let the room settle around you. Pour a glass of red wine or warm spiced tea, hold the cup in both hands for a moment, feel its heat, and take one slow sip before setting it down. Close your eyes and picture the relationship you are calling toward you — not a face necessarily, but a feeling: warmth against your side, laughter that costs you nothing, being known without having to explain yourself. Open your eyes only when that feeling has weight. The ritual begins now.

THE RITUAL

Light the **red candle** and watch the flame find its steadiness, knowing that **what you desire in partnership** is already moving toward form.

Hold the **carnelian** in your dominant hand, press it lightly to your sternum, and feel the stone's warmth meet the warmth already living there — let this be the moment you stop apologizing for needing closeness.

Take a small pinch of **cinnamon** between your fingers and trace a slow circle on the surface before the candle, moving clockwise, as you name aloud one quality you are **ready to give** and one you are **ready to receive** in love.

Set the **carnelian** inside the cinnamon circle and speak one sentence — plain and true — that begins with the words *In Libra's light* and ends with what you are genuinely asking for.

Allow the **red candle** to burn for at least ten more minutes undisturbed, then cup your hands around its warmth without touching the flame — seal this intention with a single slow exhale, and know it is carried.
