

FULL MOON IN CAPRICORN · SUNDAY, 16 JUNE 2030

## Pisces

*This ritual is for friendships, community, and future goals.*

A life built in genuine company with others — people who share your vision and your values — is one of the most quietly radical things a person can choose.

### PREPARATION

Face south. Let the room feel oriented outward — toward the world, toward other people, toward a future that includes more than just you. Let the choral or ambient music carry a sense of voices gathering, of something collective and warm. Pour a glass of sparkling water or light wine and clink it gently against something — a cup, the table, the air — as a small private toast to the people who make your life worth living. Close your eyes and picture your community not as it currently is but as it could be at its fullest: the people present, the shared purpose vivid, the specific warmth of being known and knowing others across a common vision. Let the image populate with real faces before you open your eyes. Open them when you feel the generous pull of it. The future you are building is already in the room with you.

### THE RITUAL

Light the **sea green candle** and think of a specific person in your life as you do — someone whose presence makes your future feel more possible — letting the flame carry **both your forward vision and the warmth of connection that fuels it**.

Hold a few blossoms or drops of **jasmine** in your cupped hands and breathe the scent in long and slow, letting its sweetness open your chest and remind your body that **belonging is not something you earn but something you cultivate**.

Hold the **moonstone** in both hands and speak aloud the names of three people who belong in your future — not people you are trying to impress, but people whose energy and vision **align with where you are going under this *Capricorn Full Moon***.

Set the **moonstone** down and write, on a piece of paper, one concrete step you will take in the next seven days to deepen a community connection — reach out, show up, begin — keeping the **jasmine** near as you write, letting its scent hold the **generous, forward-moving intention of the act**.

Let the **sea green candle** burn as you fold the paper and place it under the **moonstone**, sealing the intention there until you have taken the step you named — at which point the paper may be burned with gratitude and the moonstone placed somewhere it catches light.

### YOU WILL NEED

sea green candle

moonstone

jasmine
