

NEW MOON IN PISCES · SUNDAY, 19 FEBRUARY 2034

## Aquarius

*This ritual is for money, income, and material security.*

There is nothing unspiritual about needing enough — about wanting the ground beneath you to be solid and real and yours.

### PREPARATION

Face north. Clear the space around you with unhurried, practical care — wipe the surface, move what does not belong, because what you are building here requires a real foundation. Silence everything and let the forest sounds or low tones arrive and settle the room into something that feels like solid ground. Pour a glass of water or earthy tea, hold it in both hands and take one slow, grounding sip — not ceremonial, just real. Close your eyes and think about money without flinching: what it would feel like to have enough, what enough actually means to you in specific terms — the number, the feeling in your chest, the thing you would stop worrying about. Open your eyes only when that image is clear enough to write down. The ritual begins now.

### THE RITUAL

Light the **blue candle** at the north edge of your space and let its steadiness represent **the calm authority of a person who knows what they need and is actively building it** under this *Pisces* new moon.

Place two drops of **bergamot** oil on your palms, rub them together slowly, and hold them over your face for three deep breaths, letting the scent ground your nervous system and **release the anxiety that often accompanies financial intention**.

Hold the **aquamarine** in both hands at the level of your navel and state — quietly, plainly, with no performance — one specific financial intention for this lunar cycle: an amount, a source, an action, a door you are opening.

Set the **aquamarine** on a flat surface and place something that represents money — a coin, a banknote, a printed bank statement — directly beneath it, creating a physical seal between your **intention and the material reality you are calling in**.

Leave the **aquamarine** stacked over the money token in a place you pass daily, extinguish the **blue candle** with intention, and let every time you see this small arrangement remind you that **you are already in motion**.

### YOU WILL NEED

blue candle

aquamarine

bergamot

♪ Deep forest sounds or steady low-frequency tones.
