## KEY DATE

### ♂ Mars enters ♐ Sagittarius

*Mars* entering *Sagittarius* brings a shift toward **bigger goals and faster action** — people tend to stop sweating small details and push harder for what matters most. In relationships and work, you'll notice more **directness and impatience** with anything that feels like a waste of time, which can speed things up or create friction depending on how bluntly people speak. The practical upside is that **ambitious projects move forward** and people take risks they'd normally avoid, though they may also start more things than they finish during this transit.

## KEY TRANSIT FACTORS

### ♃ Jupiter ☾ Semi sextile ♆ natal Neptune ★

Over the coming weeks, you'll find it easier to **notice small details others miss** and pick up on what people really mean when they talk. Your intuition is quieter than usual but more reliable, so you can trust those gut feelings about situations or other people. This is a good time to act on creative ideas or make sense of something confusing because your mind is unusually clear right now.

### ♀ Venus ☐ Square ☉ natal Sun

Right now you feel **less attractive and less sure of yourself** than usual, which makes social situations feel awkward instead of enjoyable. You may notice that people are not responding to you the way they normally do, or that you are picking fights over small things in your close relationships. This friction is temporary, but while it lasts, you will need to be more intentional about how you show up around others instead of relying on your usual charm.

### ☉ Sun ☐ Square ♀ natal Venus

Right now your **need for attention is clashing with how you actually connect with others**, and people are picking up on the mismatch. You might push harder to get validation or approval, but that just makes relationships feel more strained and transactional. Over the coming weeks, you will benefit from stepping back and listening instead of performing, because what you want right now is not what the people around you are ready to give.

### ♃ Jupiter ☌ Conjunction ☌ natal Jupiter

Over the coming weeks, you're likely to feel **more confident in your own judgment** and less interested in playing it safe. You may take on bigger projects, spend more freely, or expand your social circle without the usual second-guessing. This is when luck tends to favour people who actually move forward instead of waiting, so your timing for starting something new is genuinely better right now.

### ♂ Mars ☾ Semi sextile ☾ natal Moon

These days you're finding it easier to act on what you actually feel instead of sitting with emotions until they build up. Your instinct to do something practical when you're upset or restless is working well for you right now. This **willingness to move forward emotionally** means small conflicts settle faster and you feel less stuck in your own moods.

☉ Sun ☐ Square ☽ Moon

Right now your gut feelings and your sense of purpose are pulling in opposite directions. You might feel irritated with people close to you without knowing exactly why, or snap at someone when you meant to stay calm. This friction between what you want to do and what feels emotionally safe can push you to make real changes, but only if you stop and actually listen to both sides instead of just reacting.

☉ Sun ♂ Conjunction ♄ Mercury

These days your mind feels clearer and you're more likely to speak up about what you actually think. **You say things more directly** and people tend to listen because you sound confident. This is a practical time to have conversations you've been putting off or to explain yourself without second-guessing every word.

☉ Sun ∟ Semi sextile ♀ Venus

Right now you find it easier to notice what you like about people around you, and that makes your social interactions feel smoother. You're more likely to **compliment someone without overthinking it** or suggest doing something enjoyable together. This isn't a dramatic shift, but these days small acts of kindness and warmth come more naturally to you.
