KEY TRANSIT FACTORS

♁ Chiron ♂ Conjunction ♅ natal Uranus

While this lasts, you become more aware of the ways you resist change or cling to independence in your relationships and work. You notice situations where you demand freedom but also expect others to stay loyal, or where you want things your own way but feel hurt when people don't follow. This period often brings **clarity about patterns** that have confused or frustrated you — and you can actually do something about them if you pay attention.

♃ Jupiter △ Trine ♆ natal Neptune

Over the coming weeks, you find it easier to **believe in your own ideas** without needing constant proof or reassurance. Your imagination feels more practical right now, and you can turn vague daydreams into actual plans that other people take seriously. This is a good time to pitch something creative or intuitive that you've been sitting on, because people around you are more receptive to what you're offering.

♀ Venus ♁ Quincunx ♆ natal Neptune

Over the coming weeks, you may notice your romantic or social preferences shifting in ways that feel unclear to you. You might find yourself **attracted to people or situations that don't quite fit what you normally want**, leaving you uncertain about what you actually value right now. This confusion usually settles once the transit passes, so it helps to observe your attractions without making major relationship decisions while this lasts.

♂ Mars * Sextile ♆ natal Neptune

You find it easier right now to **turn your ideas into actual plans** without getting bogged down in details or self-doubt. Your practical side and your imagination are working together instead of pulling in different directions. Over the coming weeks, you can make real progress on creative or personal projects that usually feel too vague or difficult to start.

♃ Jupiter ∟ Semi sextile ☉ natal Sun

You feel a quiet boost to your confidence right now, making it easier to speak up in situations where you'd normally hold back. People respond well to you at the moment because you come across as genuinely interested and **naturally encouraging**, which opens social and professional doors. This support from *Jupiter* touching your *Sun* lasts a few weeks and works best when you actually say yes to invitations and new opportunities instead of waiting for the perfect moment.

♂ Mars Rx · ♎ Libra

Asserting your needs in relationships feels harder than usual right now, and unresolved conflicts tend to resurface. Avoiding direct confrontation can build passive tension that eventually requires release. Honest conversations about what is and is not working in close partnerships are more useful now than they feel.

☉ Sun ∟ Semi sextile ♄ Saturn

These days you find it easier to stick with practical commitments without feeling weighed down by them. **You can be disciplined and follow through** on plans while still enjoying the process instead of resenting it. The light touch between *Sun* and *Saturn* means your natural confidence supports your ability to work steadily toward real goals.

☉ Sun ☊ Opposition ♇ Pluto

Right now you are more aware of what you cannot control, and this awareness makes you feel **powerless in situations where you normally feel in charge**. People around you may seem to be testing your authority or questioning your decisions in ways that feel personal. This period brings psychological friction because your sense of self is bumping up against forces larger than your willpower.

☾ Moon ☌ Quincunx ♀ Venus

Right now your emotional needs and what you want socially are slightly out of sync, so you might feel pulled in two directions. You could notice yourself wanting comfort and closeness at times when you'd rather stay independent, or the opposite. This **mismatch between feeling and wanting** is temporary, and noticing it is the first step to working with it instead of against it.

LUNAR DAY

Moon in ♐ Sagittarius · Day 16 / 30 · Full Moon

Restlessness with routine increases during this transit, and the desire to break out of familiar patterns grows. Opinions get expressed more freely and with less filtering for the next day or two.
