## KEY TRANSIT FACTORS

### ♂ Mars △ Trine ♁ natal Uranus ★

Right now you're willing to take risks in practical ways that normally feel too uncomfortable, and it's working out. You act on unconventional ideas quickly without overthinking them, and this **decisive independence** is getting real results. Over the coming weeks, trust that your instinct to break routine and try something different is actually reliable, not reckless.

### ♁ Uranus qx Quincunx ♇ natal Pluto

You feel an odd restlessness about situations you thought you had under control, and you're picking up on small details that suddenly seem important. Your impulse is to shake things up or take back power, but the timing never quite feels right, leaving you **frustrated by your own hesitation**. Over the coming weeks, small adjustments to your approach will work better than any dramatic move.

### ♇ Pluto ☉ Opposition ☾ natal Moon

You feel **emotionally raw and defensive** right now, as though people are pushing you in ways that make you want to pull back completely. Your usual comfort sources—routines, familiar people, safe spaces—start to feel suffocating or unreliable, forcing you to ask hard questions about what you actually need. Over the coming weeks, this discomfort can push you toward real change, but only if you stop resisting and start paying attention to what's actually bothering you.

### ♀ Venus \* Sextile ♆ natal Neptune

You find it easier to be **gentle and accepting** with people right now, even when they disappoint you. Your *Venus* sextile to your *Neptune* makes you more forgiving and less likely to hold grudges over small slights. This softness in how you treat others tends to make your relationships feel safer and more connected over the coming weeks.

### ♀ Venus ∟ Semi sextile ☉ natal Sun

These days you feel **more comfortable being yourself around others**, and people respond well to that ease. You're not trying as hard to impress anyone, which actually makes your conversations flow better and your relationships feel less strained. This small shift in *Venus* supporting your *Sun* won't solve everything, but it gives you a genuine advantage in how you present yourself while it lasts.

### ♂ Mars Rx • ♌ Leo

The desire for recognition and creative output is present but blocked or redirected during this period. Ambitions that felt exciting may feel suddenly hollow, or effortful performance yields less response than expected. Reassessing your goals is more honest and productive now than seeking visible results.

### ♃ Jupiter Rx • ♊ Gemini

Learning and intellectual expansion turn inward during this period — ideas that felt promising when conceived now require honest evaluation. Information gathered quickly may benefit from slower, deeper processing. Connecting existing knowledge serves you better right now than gathering new material.

### › Moon ♂ Conjunction ♄ Mercury

These days your thoughts and feelings are moving in the same direction, which makes it easier to talk about what you actually feel instead of hiding it. You find yourself wanting to tell people what's on your mind, and the words come out more naturally than usual. This is a good time to have practical conversations about emotional topics, since you're not overthinking or getting stuck in your head.

### › Moon \* Sextile ♀ Venus

Right now you find it easier to **express what you actually feel** without worrying what others will think. People around you respond well because you seem more genuine and relaxed than usual. This is a good period to have honest conversations or do something kind for someone close to you.

### › Moon ♁ Quincunx ♂ Uranus

At the moment, your emotional needs and your urge to break free from routine are **pulling in opposite directions**, making it hard to know what you actually want. You might feel restless in situations that used to feel safe, or suddenly need independence just when you were settling into something comfortable. These conflicting impulses won't resolve quickly, so expect a few weeks of awkward adjustments as you figure out what needs to change.
