## KEY TRANSIT FACTORS

### ☉ Sun ☐ Square ☾ natal Moon

Right now you feel at odds with what you actually need, making it hard to settle into anything or feel comfortable in your own routine. You might **snap at people who are trying to help you**, or find yourself irritable about small practical things like meals or sleep schedules. Over the coming weeks, this mismatch between what you think you should do and what your body is asking for will push you to pay attention to what you're actually ignoring.

### ♁ NNode ☐ Quincunx ♂ natal Mars

Over the coming weeks, you'll notice your usual way of taking action feels slightly off, as if what normally works requires a small adjustment. You might hesitate before speaking up or pushing forward, then suddenly act without your usual preparation, creating an awkward rhythm. This is a good time to notice where you act on instinct versus where you benefit from pausing to check your direction first.

### ♆ Neptune ☐ Square ♀ natal Venus

Right now you are **drawn to people and situations that are not what they seem**, and you will likely regret the time and money you invest in them. *Neptune* is blurring your judgment about what you actually want from relationships and what others can realistically give you. Over the coming weeks, pay close attention to the gap between the promises people make and what they actually deliver, because your usual ability to read a situation is temporarily offline.

### ♇ Pluto ∟ Semi sextile ♃ natal Jupiter

Over the coming weeks, you feel quietly **more willing to take practical steps toward your goals** without the usual second-guessing. *Pluto* is softly encouraging *Jupiter's* natural optimism, so small efforts you make tend to compound into real progress. This is a good time to act on plans you've been sitting with, because your confidence and follow-through are aligned right now.

### ♂ Mars ☐ Quincunx ♂ natal Mars

Right now you're noticing that your usual way of getting things done feels slightly off, like you're taking an extra step to reach the same result. You might find yourself **adjusting your approach mid-action** — starting a task one way, then switching tactics because something doesn't quite fit. Over the coming weeks, this awkward rhythm will fade, but while it lasts you'll do better by checking in with yourself before committing fully to any plan.

### ☾ Moon ☐ Square ☿ Mercury

Right now your **feelings and thoughts are working against each other**, making it hard to say what you actually mean. You might feel irritated or misunderstood because your emotions are moving faster than your ability to explain them. These days conversations tend to go sideways even when you're trying to be clear, because *Moon* and *Mercury* are pulling in opposite directions.

› Moon △ Trine ♂ Mars

Right now you feel like acting on what matters to you instead of overthinking it. **Your emotions and your willingness to do things are working together**, so a project you've been hesitant about suddenly feels doable. These days small tasks get done faster and conversations feel easier because you're not second-guessing yourself.

› Moon □ Square ♃ Jupiter

Your emotions feel bigger than they actually are right now, and you are **overreacting to small disappointments** as if they matter more than they do. *Jupiter* amplifies whatever *Moon* is feeling, so today you might eat too much when you are mildly sad, or spend money you did not plan to spend because you want to feel better. The gap between what you want and what is realistic becomes harder to ignore, and sitting with that gap without doing something about it takes real effort.

LUNAR DAY

Moon in ♒ Aquarius · Day 24 / 30 · Last Quarter

**Emotional detachment increases** these days, making abstract discussions and group concerns feel more engaging than personal ones. People respond better to logic than to feeling right now, and the need for independence runs noticeably higher.
