## KEY DATE

### ☿ Mercury enters ♋ Cancer

*Mercury* entering *Cancer* makes people **slower to speak** and more careful about what they say, especially when emotions are involved. In conversations at work or home, you'll notice folks **asking more questions** before jumping to conclusions, and they tend to remember details from past talks that seemed unimportant before. **Written communication** becomes warmer but wordier during this time, so emails and texts often include more personal touches or take longer to compose.

## KEY TRANSIT FACTORS

### ♂ Mars ∟ Semi sextile ☾ natal Moon ★

These days you're finding it easier to act on what you actually feel instead of sitting with emotions until they build up. Your instinct to do something practical when you're upset or restless is working well for you right now. This **willingness to move forward emotionally** means small conflicts settle faster and you feel less stuck in your own moods.

### ♁ NNode \* Sextile ☿ natal Mercury ★

Over the coming weeks, you find it easier to say what you actually think instead of holding back. Your conversations feel more natural and people seem to listen better when you speak. This period supports **clearer communication**, especially about topics that matter to you, as *the North Node* smooths the way for *Mercury* to work at its best.

### ♁ NNode ∟ Semi sextile ♄ natal Saturn

Over the coming weeks, you find it easier to **follow through on commitments** without feeling weighed down by them. Your practical instincts are working well with your sense of direction, so you can make real progress on goals that matter. This is a good time to take on responsibility because you actually feel capable of handling it.

### ♅ Uranus □ Square ♂ natal Mars

These days you feel **restless and impatient with normal routines**, and you're more likely to act on impulses without thinking through the consequences. Your usual way of handling frustration stops working, so small annoyances trigger bigger reactions than they should. Over the coming weeks, this mismatch between what you want to do right now and what you actually should do will create real practical problems if you don't stay aware of it.

### ☾ Moon □ Square ♂ natal Mars

These days you are **more irritable than usual and quicker to snap at people** over small things. Your emotional state is raw right now, and your usual patience for waiting or compromising has worn thin. Over the coming weeks, you may find yourself picking fights or pushing people away when what you actually need is to slow down and let this restless mood pass.

### ☉ Sun □ Square ♁ NNode

These days you feel pulled between who you are right now and who you think you should become, and this gap creates real frustration. You might **resist feedback or advice** because accepting it feels like admitting you are not enough as you are. The practical result is that growth happens anyway, but it costs you energy and confidence in the short term.

### › Moon ☿ Quincunx ♀ Mercury

At the moment your *Moon* and *Mercury* are at odds, which makes it hard to say what you actually feel without overthinking it first. You might notice yourself **second-guessing your own reactions** or explaining your emotions in ways that don't quite fit the actual situation. This awkward angle between emotion and thinking tends to create mild frustration until you accept that some feelings just don't translate neatly into words.

### › Moon ☿ Quincunx ♀ Venus

Right now your emotional needs and what you want socially are slightly out of sync, so you might feel pulled in two directions. You could notice yourself wanting comfort and closeness at times when you'd rather stay independent, or the opposite. This **mismatch between feeling and wanting** is temporary, and noticing it is the first step to working with it instead of against it.
