## KEY DATE

### ♃ Jupiter enters ♏ Scorpio

*Jupiter* moving into *Scorpio* tends to make people **dig deeper** into conversations and decisions instead of skimming the surface. At work and in relationships, this shift often brings **more honesty** about money, power, and what people actually want from each other. Over the next year, you'll likely notice **increased intensity** in how seriously people take their commitments and investigations—whether that's a business partnership, a financial overhaul, or just asking harder questions before saying yes to things.

## KEY TRANSIT FACTORS

### ♃ Jupiter \* Sextile ♄ natal Saturn ★

Right now you find it easier to **follow through on commitments** without feeling weighed down by them. *Jupiter* is supporting your *Saturn*, which means you can take on real responsibility and actually enjoy the structure instead of resenting it. Over the coming weeks, you'll notice that planning ahead and sticking to deadlines feels less like a burden and more like something that works in your favor.

### ♃ Jupiter ☐ Square ♂ natal Mars

Right now you are more likely to **overcommit and overestimate what you can actually do**, which leaves you frustrated when reality doesn't match your ambition. Your impatience is higher than usual, so small delays or obstacles feel like major blocks, and you may snap at people or push harder than makes sense. Over the coming weeks, learning to slow down and check your assumptions before acting will help you avoid wasting energy on projects that won't actually work out.

### ☾ Moon qx Quincunx ☉ natal Sun

Right now your mood and your sense of purpose are out of sync, so you feel restless even when things are going well. You might **second-guess decisions you normally feel confident about**, or find yourself irritable with people who don't understand what you need. These feelings will pass in a week or two, but until then you'll work better if you accept the discomfort rather than trying to fix it.

### ♇ Pluto ☐ Square ♇ natal Pluto

Right now you are **fighting against your own need to control things**, and this makes everyday situations feel like power struggles. You might find yourself pushing harder in relationships or at work, only to meet resistance that frustrates you more. While this lasts, the practical lesson is that forcing your agenda does not work—stepping back and observing what is actually happening around you will show you where you have real influence and where you do not.

### ♅ Uranus \* Sextile ♃ natal Jupiter

These days you're spotting opportunities that other people miss, and you have the confidence to act on them without overthinking. You feel **more willing to take calculated risks** in practical matters like work or finances, and things that seemed impossible a few weeks ago suddenly feel doable. This is a good time to pitch ideas, pursue opportunities you've been curious about, or make changes that align better with what you actually want.

### ☉ Sun ☿ Conjunction ♿ Mercury

These days your mind feels clearer and you're more likely to speak up about what you actually think. **You say things more directly** and people tend to listen because you sound confident. This is a practical time to have conversations you've been putting off or to explain yourself without second-guessing every word.

### ☉ Sun ♃ Semi sextile ♂ Mars

These days you feel **motivated to take small steps forward** without forcing things or burning out. Your practical energy matches what you actually want to do right now, so starting a project or having a difficult conversation feels less exhausting than usual. This is a good window to build momentum on something you care about while the effort still feels natural.

### ☉ Sun \* Sextile ♄ Saturn

Right now you find it easier to follow through on what you say you'll do, and people notice you're more reliable than usual. Your practical judgement is sharp, so **you can see what actually needs to happen** instead of getting distracted by what sounds exciting. This is the kind of period where effort pays off directly, so if you've been putting something off, the conditions are there to make real progress without burning yourself out.
