KEY TRANSIT FACTORS

♅ Uranus ∠ Semi sextile ♄ natal Saturn

Over the coming weeks, you find it easier to **adjust your plans without feeling like you're losing control**. Small changes to your schedule or approach no longer feel threatening, and you can spot practical improvements you've been putting off. This is a good window to update systems, refresh routines, or try a different method at work without the usual resistance.

☉ Sun qx Quincunx ☾ natal Moon

These days you feel slightly out of step between what you want to do and what you actually need emotionally. Your **restlessness shows up as difficulty settling into routines** that normally comfort you, like your usual sleep schedule or time with close people. Over the coming weeks, small adjustments to how you organize your day will help you feel more aligned with yourself.

☾ Moon □ Square ♅ natal Uranus

Right now you feel restless and irritable in ways that don't match your usual mood, making you **snap at people over small things** and struggle to sit still. Your need for sudden change clashes with what you actually need emotionally, so you might suddenly want to quit something or push away someone close to you without being clear why. These feelings will pass in a few days, but while they last you'll need to notice the impulse to act on them rather than act immediately.

♁ Chiron ♂ Opposition ♃ natal Mercury

Over the coming weeks, you find yourself second-guessing what you say before you say it, and wondering if people are really listening to you the way they used to. **Self-doubt creeps into conversations** that should feel easy, leaving you more cautious about sharing your actual thoughts. This is a practical problem right now because unclear communication at work or with people close to you can create misunderstandings that take real effort to fix once they happen.

♄ Saturn □ Square ♁ natal Chiron

Right now you are **more aware of your own limitations and past hurts**, which makes it harder to brush them off or move past them quickly. You may feel blocked when trying to help others or do work that normally feels meaningful, because old doubts about your capability are surfacing. Over the coming weeks, facing these uncomfortable feelings directly, rather than avoiding them, is what will actually move you forward.

☉ Sun qx Quincunx ♅ Uranus

At the moment you feel pulled in two directions without clear reason, and small changes in routine throw you off balance more than usual. Your usual way of doing things no longer feels quite right, but you don't yet see what would work better, which creates **restless dissatisfaction**. These days minor adjustments in your practical life take more energy and patience than they should.

☾ Sun ☿ Opposition ♄ Chiron

At the moment, you're likely to notice what you're **avoiding about yourself** — the parts of your character or your past that make you uncomfortable. This awareness doesn't feel good because it arrives as criticism rather than compassion, leaving you defensive or ashamed. Over the coming weeks, you may find yourself pushing back against feedback from others, even when it contains something useful, because right now your ego feels too raw to hear it.

☾ Moon ♌ Semi sextile ☿ Mars

These days you have a natural **willingness to take action on what matters to you emotionally**. You notice you can speak up about your needs without getting defensive, and people respond better because you sound calm instead of urgent. This period gives you just enough psychological momentum to move on something you've been sitting with for weeks.

LUNAR DAY
